Upcoming Developments

Downtown Mesquite

Downtown Mesquite is the historic heart of the community. Through a dynamic partnership of citizens and the City of Mesquite, a powerful new force has pushed for its revitalization. After receiving the Texas Main Street Program designation in 2018, a vital downtown that is authentic, vibrant and a point of pride for the community is closer than ever. The first infrastructure project broke ground in 2019. Front Street Station, a \$5.5 million public improvement project, will update infrastructure, including new sanitary sewer lines, storm drain and water lines, as well as the installation of three grease traps to accommodate restaurant development. New lighting, sidewalks, paving, shade structures, a stage and more than 80 parking spaces will also be installed. In addition, there will be a pass-through “pocket park” that will allow pedestrian passage between Front Street and Main Street.

Ironhorse Village

Iron Horse Village, a new mixed-use community, is coming soon from the Centurion American Development Group. The development is slated for completion of phases 1 and 2 in late Fall 2020 and will sit on 54 acres of prime real estate adjacent to the famed Mesquite Arena. Iron Horse Village will incorporate 336 single-family homes, 130,000 square feet of retail, restaurant and entertainment space and 4.5 acres of green space filled with creeks, ponds, trails, open space, lookouts and park space. Designs feature decorative masonry and metal walls that reflect and modernize the rodeo culture of Mesquite, incorporating steel cattle, sculptures, benches, pathways and native landscaping.

Trinity Pointe

The future is here in Trinity Pointe on the IH-20 corridor. More than 10,000 new residents will call Mesquite home within the next decade. The explosive growth in the areas surrounding Trinity Pointe has dubbed Kaufman County as the 3rd fastest growing county in the United States, with Mesquite being a big part of it. With plenty of room for commercial growth along one of the major interstate highways in the southern United States, Trinity Pointe presents the opportunity for 450 home sites and a 25-acre retail tract for development.

These two specialty rodeos promote the diverse, authentic western sport of rodeo to residents and visitors of Mesquite.

The Origins of Texas BBQ in Mesquite

If there is one thing that Texans know, it is how to cook food over a fire. Where would the world be without Texas BBQ or smoked brisket? Mesquite-based J&R Manufacturing is proud to contribute to the history of Texas BBQ. These internationally used smokers started as an idea of two Mesquite natives that decided to go into the pit barbecue business, and in 1974 the Oyler Barbecue pit was born. Fast forward to now, J&R smokers, broilers and rotisseries appear in kitchens around the world. You can find them at SeaWorld, the Hilton Tokyo Bay Hotel, and in Gordan Ramsey's Las Vegas Restaurant in Caesar's Palace.

The Creative Way the Mesquite Arts Center Brings Light to the Community

The Mesquite Arts Center plays a vital role in the community by encouraging and giving young artists a space to create with dance, painting, visual art, theatre and music. Throughout the year, the Arts Center hosts several workshops as free after school programming and weekend fun for children of all ages. It is home to the multi-generational Mesquite Symphony Orchestra that has been playing for more than 30 years and the Mesquite Arts Theater that has been around just as long.
