Vegetables

1. Minimum of 3 specimens per entry unless noted.
2. Cutting an entry is at the discretion of the Judge
3. Leave one inch of stem on most vegetables. Circular with information on "Harvesting & Preparing Vegetables for Exhibits" is available at the County Extension Office to assist in proper preparation. Exhibitors identify/name and the variety on the entry tag.
4. Judging vegetables will be based on the following:
 - A) Prime Culinary Quality - 50 % - (Taste, texture, smell, maturity, substance, color, (inside or out), weight for size, type or variety)
 - B) Form - 25 % - (Little waste, meaty, typical)
 - C) Condition - 15 % - (Limp, degree of maturity, blemished, groomed, clean)
 - D) Consistency/Uniformity - 10 % - (Shape, size, color, stage of maturity, length)

The outstanding points to consider in selecting a vegetable are quality and condition. The judging of a vegetable exhibit is generally based on the readiness of the product for immediate use. The quality of the product is determined by actual test. Medium sizes are generally preferred to the very large sizes. Uniformity, a point which applies to exhibits that include more than one specimen, is particularly important. Uniformity largely determines the appearance of the exhibit. Avoid specimens that are over ripe, immature, stringy, pithy, woody, corky, pulpy, irregular, wilted, cracked, discolored, coarse, sunburned or diseased. All specimens should be free of dirt, decay, rust spots, blemishes and insect damage.
