Arkansas franchise has received some concerns to the National office. The franchise has had an issue with using carded individuals for their associates and also their stock contractors. They have been notified numerous times by the national office to have this resolved and it has not been taken care of. Discussion was had and Billy recommended that they be placed on probation for one year and that they be notified officially that should they use individuals who are not carded in the future the franchise will be subject to additional review. Kevin made a motion to accept the recommendation and Em 2<sup>nd</sup> the motion, All were in favor, Annie will send out the notification to the address on file and also email the secretaries.
