New Mexico State Fair 2015 Releases First Schedules
*Livestock and Horse Schedules Released Early to Encourage
Maximum Participation*

The New Mexico State Fair is proud to release schedules for both its livestock shows and its horse shows a full 6 months ahead of the annual event in order to allow ample time for participants to plan their involvement and activities at this year's Fair. This year's Fair runs September 10 – 20 with a wide variety of exciting events for spectators and participants alike.

As is tradition at the New Mexico State Fair, there will be plenty of livestock shows to choose from as well as sheep to shawl and milking demonstrations. The Jr. Livestock Sale will be at noon on the last Friday of the State Fair. Horse Shows will feature eighteen different shows and events during the eleven days of the Fair and once again be managed by professional show management company Excel Associates.

“The release of these schedules so far ahead of the Fair is further evidence that our staff works diligently year-round to ensure an exceptional Fair, and recognizes the importance of our horse and livestock shows as critical components of a successful annual event,” stated General Manager Dan Mourning. For more information, log onto www.EXPONM.com.

For questions relating to participating in the Horse Shows, please contact Sally Mayer at Sally.Mayer@state.nm.us and for questions relating to participating in the Livestock Shows, please contact Beverly Zastrow at Beverly.Zastrow@state.nm.us.
