General Rules for Flowers

- In an effort to maintain fresh flowers throughout Fair, the Flower Department has divided the show. A divided show, will improve the display of the arrangements and flower entries.
- Limit **one** entry per class per exhibitor
- Exhibitors first 25 entries are subject to a \$1 fee per entry. After 25 entries, there are no additional fees. **Entry fees are charged to help offset the increased premiums.** (Example: 2 entries equal \$2, \$25 entries equal \$25 while 45 entries equal \$25)
- 17 & Under enter youth division.
- Entries must be grown by exhibitor.
- Wherever a section calls for a certain number of blooms, spikes, sprays or stalks, enter **EXACTLY** that number.
- All flowers must be named on “Exhibit Description” lines of the entry tag.
- Superintendents and clerks will endeavor to care for all entries but will not be held responsible for loss or injury to the entry.
- USE ONE NAME ONLY ON ALL ENTRY TAGS.** Your points will accumulate towards the Green Thumb Gardener. **DO NOT USE VARIATIONS OF YOUR NAME**, such as your full name on one tag, a nickname on another tag, and initials on yet another tag. We will not assume all names used on tags belong to you. PLEASE NOTE THAT CORRECTIONS WILL NOT BE MADE AFTER ENTRIES ARE TAKEN. POINTS WILL BE CALCULATED ACCORDING TO THE NAME ON THE ENTRY TAG.
- PLEASE CHECK WITH SUPERINTENDENTS BEFORE WATERING, REARRANGING EXHIBITS, OR TO CHANGE WILTED FLOWERS. WILTED FLOWERS MUST BE CHANGED BEFORE 10 PM WEDNESDAY NIGHT; OTHERWISE, WILTED FLOWERS WILL BE DISPOSED OF.

Sponsored by: ***A Little of This & That.***

DEFINITIONS

- Bloom:** Single flower on one stem. Examples: zinnia, dahlia, rose.
- Spike:** Lengthened flower clusters in which flowers are practically stemless. Examples: snapdragons, gladiolus.
- Spray:** Several flowers or clusters of flowers on a branched stem, each having its own stem. Examples: petunias, cosmos.
- Stalk:** A stem, shaft, or slender supporting part of a plant. Examples: lilies.
- Display:** A larger entry of one type of flower that contains more blooms, spikes, sprays or stalks.

SELECTING ENTRIES

- Cut your flowers in late afternoon the day before they are to be entered. Cutting should be done at about 4 pm, since at that time there is the greatest amount of sugar in the leaves; unless it is extremely hot weather, at which time cutting in the early morning is optimum.
- Place the flowers immediately in water that has been set out in the garden all day. Keep flowers in water, in a cool, dark place overnight.
- To arrange, cut stems cleanly at an angle under water with a sharp knife and place in water-filled vase or container.

STEMS & FOLIAGE - GROOM PLANTS WELL!

- Cut stems as long as possible. All stems should be in proportion to the flower.
- Attached foliage **must** accompany bloom entries in order to show the flower as it is grown. Therefore, if a flower calls for foliage, **it must be attached.** Exception: when bloom has no foliage.
- FOLIAGE SHOULD NOT BE IN WATER.** Trim off any foliage below the water line.
- Foliage should be clean.
- Any broken or disfigured foliage or petals should be removed, as foliage and stems as well as blooms count in judging.
- It is better to have more stem and foliage than too little.

DISPLAY CONTAINERS

- Label your containers **on the bottom.**
- All flowers must be displayed in clean containers.
- Containers should be in proportion to the flower and tall enough to hold flower upright.
- DO NOT USE VALUABLE OR FRAGILE CONTAINERS. JARS, BEER BOTTLES (REMOVE LABELS), ETC., ARE GOOD SUBSTITUTES FOR VASES.**
- If your entry is **heavy**, be sure your container is **weighted** so it won't tip over.
- If you are bringing in a LOT of entry items, please bring box(es) marked with your name to leave with staff to put your empty containers in during Fair tear-down.
