All exhibitors are responsible for their animals until removal as scheduled or notified by Barn Manager for check out. At check out, exhibitors' stalls must be cleaned per the Barn Managers rules.

Superintendents are responsible for the proper adherence to the check-out process. Unauthorized removal of exhibits prior to scheduled release times will result in forfeiture of all premiums, awards and/or sale proceeds, and be subject to further disciplinary action as deemed appropriate.

26. **INDEPENDENT EXHIBITOR DOCUMENTATION REQUIREMENTS:** All Independent NISF YSSS youth livestock exhibitors will be required to submit a completed Independent Exhibitor Project Record for all projects. Such exceptions must be requested by the exhibitors, parent/guardian and respective program management in advance. If an exhibitor’s animal is not present at the Fair due to illness or death, an exhibitor may show another NISF registered youth livestock exhibitor’s animal with the owner’s agreement. By submitting and signing the YSSS Market Animal Affidavit Ethics Form and Statement of Disclosure, the exhibitor and parent/guardian certify that the entry has not been administered or that the exhibitor and/or parent/guardian do not have knowledge that this entry has received any substance not approved by the Food and Drug Administration (FDA) and/or the U. S. Department of Agriculture (USDA) for food animals. Furthermore, by signing these forms, the exhibitor and parent/guardian certify that this entry is free and clear of drug and chemical residue that exceeds allowable limits set by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for class and species of animals.
- ii. Any medication administered prior to the YSSS must be disclosed on the YSSS Animal Affidavit form and submitted during check-in.
- iii. If an exhibitor chooses or needs to administer medication to an animal prior to the NISF, read all product labels closely to ensure that the medication does not contain an ingredient that could be considered to give the animal a competitive advantage. The exhibitor is further cautioned that it often takes longer than the labeled withdrawal time for complete elimination of drug residue from an animal's system.
- iv. The YSSS has the right to examine and/or test any animal (deceased or living), feed, liquids, or equipment at any time. The YSSS may sample an animal's blood, urine, milk, saliva, hair and/or tissue. Any samples taken for testing become the property of the NISF. Samples may be collected, stored and tested in any manner the YSSS deems appropriate. Positive test results may be made public.
- v. The YSSS reserves the right to take DNA samples and utilize DNA testing for any reason deemed necessary.
- vi. The YSSS may impound any animal for testing. Refusing such tests shall be cause for disqualification. Any animal tested at the YSSS is subject to being detained at the expense of the exhibitor until the YSSS receives final test results.
- vii. All market Grand and Reserve Grand Champion beef, lamb, goat and swine market animals will be tested for prohibited substances. Testing will be done immediately following the Final Selection of each species. Each exhibitor's cooperation is required. All animals tested will be harvested and held until all testing has been completed. ALL OTHER MARKET ANIMALS WILL BE SUBJECT TO RANDOM TESTING. Randomly tested animals may not be harvested but will be subject to all sanctions including, but not limited to disqualification, forfeiture of all monies, assessment of carcass disposal fees and being barred from future participation at the NISF in the case of positive test results.
- viii. The animal owner, exhibitor, and associated participant bear absolute

responsibility for an animal's condition, whether or not he or she was actually instrumental in or had actual knowledge of the administration of drugs or medication or treatment of the animal.

3. VIOLATIONS AND SANCTIONS: Exhibitor compliance with all applicable rules and regulations is essential to the integrity of the NISF and its shows, programs and exhibitions. Violation of any applicable rule or regulation may result in exhibitor sanctions. Sanctions may include, but not be limited to disqualification, withholding of premium money, withholding of payment for any sale proceeds, assessment of carcass disposal fees, and exclusion from future participation at the NISF. Any applicable fees associated with the violation including restitution will be the responsibility of the exhibitor. Additionally, rule violations may be referred to law enforcement authorities when appropriate. The exhibitor will be notified of any sanction by the NISF within 60 days of the end of the Fair. An exhibitor may appeal the findings to the NISF Board. The determination of the NISF Board as to any sanction shall be final, without recourse against the Fair. The Fair reserves the right to refuse the entry of any exhibitor who has been barred from any other show on the basis of rule violation or unethical practices. Any exhibitor who has been disqualified from competition in any show, or has had sanctions or disciplinary action taken against him or her, may not be eligible to make entry or compete, or having competed, may not be eligible to win a premium.

a. VIOLATIONS:

- i. Drug Administration: It is a violation if any medication or drug is administered to an animal after it has arrived on the Fairgrounds without the supervision of the Official State Fair Veterinarian.
- ii. Non-FDA-Approved Drugs: It is a violation if a market animal tests "positive" (not a quantitative test) for any drug that has not been approved by the Food and Drug Administration for such type of animal. (There are certain feed additives that are approved for certain species but not for others, i.e. Optiflex and Paylean). However, it shall not be a violation of this subsection if the exhibitor disclosed the drug specifically as follows: the exhibitor provides to the NISF, at check-in, the YSSS Ethics Form and Statement of Disclosure along with prescription completed by the veterinarian that properly prescribed the non-FDA-approved drug for the animal. It shall also not be a violation of this subsection if the State Fair Veterinarian prescribes a non-FDA-approved drug for an animal during the YSSS and provides that documentation to show management. If the prescribed drug has a withdrawal time that would not be met, however, that animal would not be eligible to show. Please be aware that federal law prohibits the use of certain drugs, families of drugs, and substances for extra label animal uses. Therefore, notwithstanding the above, it is a violation, with an increased penalty, if a market animal tests "positive" (not quantitative test) for any of these prohibited drugs or drug families. Please refer to the following website for clarification:
<https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfcr/cfrsearch.cfm?fr=530.41>
- iii. FDA Approved Drugs (Tolerance): It is a violation if a test result indicates the presence of an approved drug, additive, or contaminant that exceeds a residue limit (tolerance) set by the FDA and applied by the Food Safety and Inspection Service.
- iv. Competitive Advantage (All Animals): It is a violation if a test indicates the

presence of a substance, practice or other adulterant that could give an animal a competitive advantage. Competitive advantage substances include, but are not limited to steroids, diuretics, anti-inflammatories, tranquilizers, and pain killers.

- v. Unethical Fitting and Grooming Practices: It is violation if an animal evidences air pumping or the presence of inappropriate substances to alter conformation. Similarly, it is a violation to use artificial colors or dyes meant to misrepresent breed characteristics or enhance animal conformation. Methods such as stomach pumping to induce artificial fill, performing surgical and/or non-surgical procedures to alter or misrepresent the animal's configuration or the natural conformation of any part of the animal's body, excessive needle marks, or unethical fitting are grounds for disqualification. The following generally accepted management practices are allowed: hoof trimming, dehorning, removal of hair, castration, branding, tattooing, ear notching, drenching, and docking of tails.
 - vi. Falsification of Entries or Records: It is a violation to falsify or alter official entries, records or registration of animals.
 - vii. Unsportsmanlike Conduct: It is a violation for an owner, exhibitor, and associated participant to act in any way that is outright discourteous or disrespectful to other exhibitors, judges, veterinary staff, fair personnel or fair visitors, or to deliberately place or cause to be placed any animals or other person in a potentially harmful or disadvantageous position.
 - viii. Approaching a Judge: It is a violation for any individual, except YSSS personnel, to approach a judge during a show.
- b. **SANCTIONS:** In the event of a violation, the exhibitor and their parties may be subject to sanctions including, but not limited to the following:
- i. Disqualification of the animal.
 - ii. Forfeiture of all monetary awards including premium and sale proceeds associated with the exhibitor for the NISF. The exhibitor also forfeits rights to any product resulting there from.
 - iii. Return of all trophies and non-monetary awards associated with the exhibitor for the current State Fair.
 - iv. Forfeiture of all titles associated with the exhibitor for the NISF.
 - v. A ban from competing in any competitive event at the NISF in current and future years.

5. Market animals not meeting the minimum weight requirements of the species will not be eligible for the sale. Lightweight animals not eligible for sale may be marketed after their species has sold on the YSSS card for private sale within the barn. No privately sold animals will be transported by the YSSS to processors and must be removed from the Fairgrounds as a “take out”.
