Deni Herrmann has been a great resource for finding good, reasonable entertainment for our county fair. He is easy to work with and has always been very proactive in making events happen as they should with the least amount of stress and work for his clients. He is very well organized and understands and works within the limits of each function. He understands the business and how to best serve both the fair and the entertainer to the advantage of all concerned.

Tammie Ryan-Owner, Super Science Company

Having performed as a musician and actor in the early years, I learned the meaning of Professional. I know what it takes to stage a show, what's important to buyers and how to create "Entertainment Value". Most importantly I recognize real talent when I see it.

Please allow me to consult with you and help select the performers that best appeal to your audience, work within your budget and create an exceptional Fair Experience.
