- Most Inspirational (Water Polo) -2023,2024,2025
- Outstanding Debater - 2023

Hobbies and special interest:

In my spare time, I enjoy being outdoors hiking, skiing, exploring, or swimming. I also enjoy getting crafty through letter writing (I have 15 pen pals!), scrapbooking, and watercolor. One of my most common ways I spend my time is pouring into my relationships, no matter if it's neighbors, family, friends, or those at my great-grandpa's old folks home.

What is your favorite place to visit in Portland and why?

The Tom McCall Waterfront is at the top of my Favorite things to do in Portland list. This beautiful stretch, especially in the spring with the Cherry Blossoms, is a prime area for connection. I love to pick up a Portland treat, meet new people, and spend time outdoors with others who love the area. Different events bring in such a wide variety of people, an aspect I love so dearly about Portland.

What are you most proud of during your high school career?

Initially, when asked what I'm most proud of, I think of maintaining a 4.0 GPA, which I achieved by taking all the AP and college classes my school offers. However, I am truly most proud of staying committed to my schooling, as well as taking care of my family and house. Addiction in my family became a major part of my life. This was very taxing on me mentally and physically, but it helped me develop confidence in myself and compassion for others (specifically those struggling with addiction). No matter how much energy filling that role took, I knew that I had to also take care of myself and invest in my education.

What is your favorite Rose Festival event and why?

Out of the many events put on by the Portland City Rose Festival, the Starlight Parade has to be my favorite. The nighttime takes on an experience unlike any other local parade, which makes it the most memorable. Watching the talented marching bands led me to start playing my current instruments, and seeing the thought-out costumes gave something for my mom and me to connect over.
