How are You Focusing on Fun in 2023?

When I was told I had to write a three-minute speech on how will I have fun in 2023, I honestly freaked out about it because I'm like "How will I possibly talk about that for three minutes?" Every time it crosses my mind I think to myself "Well, you're a Senior and you're about to embark on this journey where you go out into the world, not only as a young adult but a young woman and I know myself." 2023 ends in 10 months and I thought, what could I do in that ten months that I can say to myself I had a fun year? I think I say to live it up because my mom once said "We are not on this world to go to work and pay bills" and I have the rest of my life for that so this is my time to go out figure out what I want to be and to do. I say I will go on trips; my family is going to El Salvador and we have been to Hawaii. I want to see the world and what it has in store for me. I also want to hang out with my friends, go to basketball games and support my school because just in a short amount of time I'm going to leave and, in a way, I am leaving my younger self behind and finding my new self.
