Stock Show & Rodeo®

LET'S RODEO SAN ANTONIO!
FEBRUARY 10-27, 2022
SARODEO.COM

Welcome!

We are celebrating the 73rd San Antonio Stock Show & Rodeo and are delighted to have you here as our guests as exhibitors and contestants! The San Antonio Livestock Exposition, Inc. is a volunteer organization emphasizing agriculture and education to develop the youth of Texas. Our 6,000 volunteers and an outstanding staff are the ones who make this show possible.

We appreciate your cooperation as we worked through numerous challenges last year. We are excited to see you February 2022. We currently offer a wide assortment of junior livestock shows and educational contests along with junior agricultural mechanics and junior shoot-out contests. All of these provide youth an opportunity to showcase their agriculture-based knowledge and skills in a competitive environment. While we celebrate all of our current shows and contests, we are also committed to developing and expanding our reach by offering even more opportunities to youth exhibitors.

Scholarship winners will join a special group of scholars. Currently there are over 1,500 active S.A.L.E. scholars enrolled in more than 100 colleges and universities throughout Texas. Since the inception of our show, we have provided over \$232 million to the youth of Texas in the form of scholarships, grants, endowments, auctions, calf scramble and show premiums.

My deep appreciation and thanks to the Livestock Committee Chairman and Vice-chairman, Sarah Franklin and Ryan Coble, respectively; Ag Mechanics Committee Chairman and Vice-Chairman, Lawrence Padalecki and John Brogdon, respectively; Junior Shoot-Out Committee Chairman and Vice-Chairman, Wade Mayfield and Tinker Lawson, respectively; Competitive Events Director and Manager, Dr. Brian Faris and Mikhaila Adcox, respectively; and all the Livestock, Ag Mechanics, and Junior Shoot-Out Volunteers. Your commitment and enthusiasm are what make it all possible.

God Bless,

David White
President

GENERAL RULES

Junior Show Entry Deadline: December 1, 2021

The San Antonio Stock Show & Rodeo is committed to the humane treatment of all animals exhibited. Every reasonable precaution is taken to promote the animals' safety and well-being. The production practices in the livestock industry are based on good principles of animal husbandry. No one has a greater economic stake in the welfare of animals than the livestock producers and organizations involved in the promotion of agriculture.

Civil Authority Evacuation

The San Antonio Stock Show & Rodeo, along with all other large venue and public gathering places and events around the country, has been advised by Federal, State, and Local Authorities that an emergency evacuation of the premises may be ordered by any of those authorities at any time. This decision would be driven by information available to those authorities that (1) may not be available to the San Antonio Stock Show & Rodeo, or classified by the authorities, and therefore the San Antonio Stock Show & Rodeo could not share it with our exhibitors; (2) could arise out of an actual or threatened act of terrorism; (3) or arise from any number of other public safety concerns the authorities have for the safety of the public at our show.

If an evacuation order occurs, you will be asked to leave the premises immediately. Your cooperation is not only required by law but for your own safety and the safety of other members of the public at the show. San Antonio Police Department (SAPD) and San Antonio Stock Show & Rodeo uniformed Police Officers will direct the evacuation. We are further advised that any evacuation will be for persons only and no other property, animals, trailers or anything but your immediate means of transportation will be allowed off the premises. This is for the purpose of achieving the most timely and efficient clearing of the public from the threatened area. Do not attempt to load personal property, merchandise, animals, or anything but yourself and your family and friends into your vehicle and leave the premises immediately.

The evacuation plan calls for certain, designated Law Enforcement personnel, San Antonio Stock Show & Rodeo management, and maintenance personnel to remain on the Show Grounds to secure the premises.

In the unfortunate event this occurs, the San Antonio Stock Show & Rodeo will do everything possible to care for personal property, animals, commercial exhibitors' merchandise, etc. until the authorities remove the evacuation order and you are allowed back onto the Show Grounds. No one will be allowed back on to the Grounds until the authorities issue that order. San Antonio Stock Show & Rodeo Police and SAPD will enforce the order strictly and in accordance with instructions from the authorities.

Your entry and participation in the 2022 San Antonio Stock Show & Rodeo is conditioned on your understanding and agreement that none of the San Antonio Livestock Exposition, Inc. ("S.A.L.E."); Bexar County, Texas ("County"); Bexar County Community Arenas Board ("CAB"); Community Arena Management ("CAM"); San Antonio Spurs, LLC ("Spurs"), or their respective Directors, Officers or Employees shall have any liability whatsoever for any loss, damage, destruction or personal injury to any exhibitors or patrons or their personal property, merchandise or animals during or after such an event, particularly with respect to an evacuation of the premises in the event of an emergency.

Important Definitions:

Arrival*: The term “Arrival” shall refer to the time at which animal and agricultural mechanics projects (projects) may arrive at the Salado Creek Property. All projects must arrive at Salado Creek Property before entering East Gate. Exhibitors will be given further directions on stalling and unloading procedures upon arrival.

Exhibitor Check-In: The term “Exhibitor Check-In” shall refer to the time allotted for exhibitors to provide necessary information (ex. Original Registration Papers, Kiosk Cards, etc.) to Show Management for their respective show/contest. Some shows may require exhibitors to input animal information into an entry kiosk. Exhibitors who fail to complete the check-in requirements for their respective show/contest are subject to disqualification.

Project: The term “project” shall be defined as any animal, agricultural mechanics project, agricultural science fair project or any entry competing in the San Antonio Stock Show & Rodeo Livestock Show.

Tack Vehicle: The term “Tack Vehicle” shall refer to any vehicle or vehicle/trailer combination associated with animal projects transporting tack/equipment only. - 1. Interpretation and Violation of Rules:** Exhibitors are requested to report any rule violation to Show Management immediately so that appropriate action may be taken. S.A.L.E. reserves the final and absolute right to interpret these rules, and to settle and determine all matters, questions and differences in regard thereto or otherwise arising out of or connected with, or incident to, the San Antonio Stock Show & Rodeo; and to amend or add to these rules as its judgment may determine. Any exhibitor who violates any of the rules will forfeit all privileges and premiums and be subject to such penalty as S.A.L.E. may order.
- 2. Special Rules:** Special Rules are published in any department where necessary. If there is a conflict between the Special Rules and the General Rules, Show Management will make a ruling as to such conflict, which shall be binding and final.
- 3. Decisions:** The decision of the judges shall be final in all cases, except where mistake, fraud, misrepresentation, or collusion, not discovered at or before the time of award, is proven. Any objections to a judge must be submitted in writing to Show Management prior to the event in question.
- 4. Official Protests:** Official Protests must be submitted in writing to the Livestock Office and accompanied by a \$300.00 deposit, which will be forfeited if the protest is not sustained. The protest must state plainly the cause of complaint or appeal, giving good and sufficient reasons therefore, and must be delivered to Show Management immediately upon the occasion for such protest. Premium Passes

The Premium Pass is an optional pass designed to assist exhibitors who work with others to consolidate their animals into fewer trailers. Purchasers of the Premium Pass will receive access to a more expedited arrival process. Premium Pass includes separate arrival and staging lanes that allow exhibitors to bypass traditional staging lines at the Salado Creek Property. Premium Passes are not substitutes for any other Parking Pass as privileges do not extend beyond the Salado Creek Property. Premium Passes will be available for purchase by AST/CEA via the online entry system (up to the maximum limit) on a first-come, first-serve basis. The Premium Pass is **NON-TRANSFERABLE, NON-REFUNDABLE** and is available for the following arrivals only:

Eligible Species Arrival	Arrival Date	Minimum hd./trailer	Purchase Price	Maximum Passes Sold
Junior Breeding Gilt/Crossbred Gilt	Wed., Feb. 9	5	\$500	40
Junior Market Lamb/Goat	Tues., Feb 15	5	\$500	80
Junior Breeding Heifer Group 1	Tues., Feb 15	3	\$500	40

Salado Creek Property

A Premium Pass Set (1 Livestock & 1 Tack) is valid at the Salado Creek Property for one vehicle/trailer hauling livestock and one tack vehicle/trailer. When arriving at the Salado Creek Property, the Premium Pass hangtag/permit must be hanging from the rear-view mirror or displayed on the driver's side dashboard of each respective vehicle. Drivers should follow signage and receive further instruction from volunteers. Expedited arrival services do **not** extend beyond the Salado Creek Property.

Minimum Head per Trailer Requirements

Fundamental to the Premium Pass concept, minimum head-per-trailer requirements will be strictly enforced. Any combination of Junior Breeding Gilts and Crossbred Gilts may be used to meet Breeding Gilt requirement. If different species arrive on one trailer (ex. Junior Market Goats + Junior Breeding Heifers), the trailer must meet the minimum head-per-trailer requirement for at least one specie.(i.e. 5 Breeding Gilts, 5 Market Goats, 5 Market Lambs, 3 Junior Heifers, 5 Market Barrows). No animals will be allowed on the tack trailer. **Those not meeting stated requirements will void the Premium Pass, be assigned to the end of the staging line.**

Stalling

With the exception of Pre-Penned Market Lamb/Goats, exhibitors will be stalled upon arrival. Groups wishing to be stalled together must arrive at the Salado Creek Property together. All vehicles in the group must have a Premium Pass. Those without a Premium Pass will be assigned to the end of the traditional staging lanes. The Premium Pass does not grant any additional stalling considerations.

10. **Parking:** Livestock Exhibitor parking will be in Lots 6 & 7 (Gate G). Overflow parking will be available, if necessary. **NOTE:** There will be NO Livestock Exhibitor Parking permitted in Lot 5.
11. **Project/Animal Substitution:** Substitutions are to be made only in the Livestock Office or directly to the show Superintendent, unless otherwise announced. Substitutions not officially recorded in this manner are invalid. Substitutions will not be permitted once Check-In is complete. Substitution Forms must be filled out completely. Registration Certificates will be required to verify ownership. Substitution of owners is not permitted. Substitution Forms are located on the website at [Livestock Show \(sarodeo.com\)](http://Livestock Show (sarodeo.com)).

Animal/project substitutions mailed to the Livestock Office and postmarked by January 15, 2022 = No Charge.
Substitutions made after January 15, 2022 = \$100.

**SUBSTITUTIONS MAY ONLY BE MADE WITHIN THE SAME DEPARTMENT
(Otherwise it is considered a separate entry; subject to a late entry fee).**

12. **Refunds:** There will be no refund of fees. In the event of cancellation of a specific contest/show, refunds may be offered in-partial or in-full, and will be determined solely by the San Antonio Stock Show & Rodeo.
13. **Premiums:** Premium monies will be distributed by the San Antonio Stock Show & Rodeo. In some cases, premium checks may be held until all funds from all sources are received by the San Antonio Stock Show & Rodeo. Auction checks will be issued by the San Antonio Stock Show & Rodeo Junior Livestock Auction and may be mailed separate from premium checks or commission (floor) checks to the 4-H or FFA address. If premium and/or auction checks are reissued for any reason a \$35 fee per check will be subtracted from the premium/auction total.
14. **Barred Exhibitors:** The San Antonio Stock Show & Rodeo, in cooperation with member shows of the North American Livestock Show and Rodeo Managers Association Rule Infraction Database, reserves the right to refuse entry of any exhibitor who has been barred from any other show on the basis of unethical practices.
15. **Ownership Requirements:** All animals must be entered in the name of the owner(s) as shown on the Original Registration Certificate.
16. **Breeding Animals:** Animals in the breeding classes (with the exception of Crossbred Gilts, Commercial Ewes and Commercial Does) must be recorded or accepted for record in the Herdbook of their Association. Exhibitor must give the following: (a) owner's name; (b) mailing address; (c) breed; (d) name; (e) registration number; (f) sex; (g) birthdate; (h) sire name; and (i) dam name of the animal. If any of this information is not given, the entry will not be accepted unless otherwise stated in individual Department Rules.

17. **Stalling:** Insofar as possible, shelter will be provided for projects. The Show does not charge a stall fee in barns and does not guarantee stall space to any entry. Stalling will be based on the number of eligible projects arriving at the SCP and not the number of original project entries. Stalls will be assigned upon arrival at the Salado Creek Property Staging Office, with the exception of Pre-Penned Junior Market Goats & Junior Market Lambs. Certain stalling requests in extenuating circumstances may be granted, but no other general stalling requests will be considered. Exhibitors found deliberately attempting to gain more stalls than appropriate will be subject to punishment from Show Management including, but not limited to, disqualification, removal from the Grounds, banning from future competition, etc. No early arrivals are allowed without permission from the Competitive Events/Livestock Office.
18. **Erroneous Entry:** Projects that have been erroneously entered may be transferred to the proper class prior to judging, and upon application to the Superintendent, who will determine the matter. If such classes have been judged they shall not be reopened. No project shall be changed from one class to another after the Check-In unless it is ineligible for the class in which it is entered. In some cases, the project may be disqualified.
19. **Sifting/Classifying Committees:** Breed Associations and/or the San Antonio Stock Show & Rodeo may appoint Sifters and Classifiers to inspect projects. Projects may be reassigned or disqualified based on the decisions of Sifters and Classifiers. Decisions of the Sifters and/or Classifiers will be final and protests will not be considered. Interference with Sifters and/or Classifiers will not be tolerated. Exhibitors and others are requested not to question their decisions, and to do so may disqualify the exhibitor concerned.
20. **Judging:** Exhibitors are responsible for knowing the times at which their projects will be judged. Any project not presented promptly will be ruled ineligible and barred from competition. No complaint or protest on the Grounds that the judge overlooked projects will be considered.
21. **Interference:** If any exhibitor, in any way, whether in person or by agent, or servant, interferes with the judges during their adjudication, or shows any disrespect to them or the show, is subject to be penalized. Show Management may demand a proper apology from the exhibitor, may exclude him/her from competition, bar him/her from the Grounds, and may also withhold any prizes that may have been awarded.
22. **Restraint / Unruly Animals:** Exhibitor and patron safety are a top priority. Therefore, Show Management or Livestock Committee Leadership/Ring Stewards may remove any unruly animal from the show and/or the Grounds at any time; there will be no appeal. Cattle must be shown with halter and be sufficiently gentle to be properly handled by one attendant. If exhibition of a project poses a danger to the exhibitor and/or other parties, Show Management reserves the right to allow a substitute exhibitor or remove the project from competition. In some cases, projects may be instructed to be removed from the Grounds.
23. **Show Equipment:** Livestock shows provide an opportunity for the general public to be exposed to agricultural exhibits. Exhibitors should be mindful of the show equipment being used and the manner in which it is being used. Show Management or Livestock Committee Leadership/Ring Stewards reserve the right to decide what constitutes acceptable show equipment and how the equipment is being used by the exhibitor. Cable halters and pronged chains are prohibited for all species.
24. **Release:** No project may be removed from the Grounds without official written release. All livestock must remain in stalls or pens until their designated release time. There will be no early release of projects unless the Superintendent says otherwise. Anyone attempting to load projects before their release time may have their truck and/or trailer towed away. No livestock may exit the Grounds between 10:00 PM – 7:00 AM. Any violation of release times will cause the forfeiture of all premium and/or auction monies earned, and the exhibitor may be barred from future participation.
25. **Photographs:** Exhibitors agree to present their project(s) at the request of show officials for official photographs. All photographs taken by the official photographer(s) become the property of the San Antonio Stock Show & Rodeo. Unofficial (i.e. personal) photographs may not be published without written approval of Show Management. Exhibitors wishing to purchase photographs must contact the Official Photographer.

Commercial photography and filming are often conducted at the San Antonio Stock Show & Rodeo. You may be depicted in photographs or video recordings of any San Antonio Stock Show & Rodeo event, and by entering the Grounds and/or competitive events associated with the San Antonio Stock Show & Rodeo, you consent to the use of any depictions in connection with advertising, news reporting, public relations, webcasts or other broadcasts, or any other activities relating to the San Antonio Stock Show & Rodeo, and you further release and waive all claims for compensation and any rights of review and approval, copyright, and right of publicity with respect thereto.

- 26. Project Care:** Exhibitors must remain in charge of their project(s) and care for them for the duration of the show at all times. If needed, the exhibitor may have a competent caretaker (must be an immediate family member of the exhibitor, other 4-H/FFA member, or AST/CEA) care for the project(s). However, the exhibitor is the absolute insurer of and is responsible for the condition of their animal/project(s). Show Management reserves the right to decide what constitutes acceptable treatment of animal projects. Unacceptable treatment of animal projects will not be tolerated and could result in immediate disqualification of the exhibitor along with his or her club/chapter.
- 27. Project/Animal Care/Security:** All owners or persons in charge of property, or livestock, shall care for, guard, protect, and preserve same, as the San Antonio Stock Show & Rodeo does not undertake to do so, and it shall not be held responsible for any loss, shrinkage, or damage to said property or livestock or the owners or exhibitors thereof. All exhibitors are responsible for security of their own animal/project(s) until they depart for their final destination (processing/ranch/etc.). The exhibitor is the absolute insurer of and is responsible for the condition of their animal/project(s). The San Antonio Stock Show & Rodeo is not responsible for the acts of a third party.
- 28. Unethically Fitted Livestock:** The showing of unethically fitted livestock or livestock of an ineligible age for exhibition in the class entered, and the misrepresentation of breeding or milking status, are prohibited.
 - a. Description:** Unethical fitting means any attempt to alter the natural appearance, conformation, musculature or weight of an animal by any unnatural means, as well as changing the normal conformation of any part of the animal's body or using drugs, medications, chemicals, or other substances (including over-the-counter and extra-label substances and uses), or mechanical devices to alter the physical makeup or performance of the animal. Unethical fitting includes but is not limited to the following:
 - i. Animals that are in milk due to an unnaturally induced lactation.
 - ii. Balancing the udder by any means other than leaving naturally produced milk in any or all quarters.
 - iii. Treating or massaging any part of the animal's body, internally or externally, with an irritant, counterirritant, or other substance to temporarily improve conformation.
 - iv. Blocking the nerves to prevent limping or switching of the tail.
 - v. Bruising or blemishes negatively impacting food safety or marketability of an animal's carcass.
 - vi. Surgery or other practices performed to change the natural contour or appearance of the animal's body, hide, or hair, or feet (this is to include any materials added to the feet of an animal) except the removal of warts or horns and the permitted clipping and dressing of hair and trimming of hooves.
 - vii. Insertion of foreign material under the skin.
 - viii. Changing the color of hair, spot or area on the animal's body. Any grooming material that allows color to come off from any animal will not be allowed at the show.
 - ix. The act of artificially filling animals internally, which would include stomach pumping, drench tubes, or any other method per os (by esophagus).
 - x. The use of diuretics.
 - xi. Administration of an illegal, unapproved, or performance enhancing drug internally or externally.
 - b. Verification:** The exhibitor specifically represents that no animal entered by him/her is unethically fitted, and that the breeding, age, and milking status are correctly stated. All Junior Market and Junior Breeding Animals will be required to have signatures on each entry certification stating that the animal is not unethically fitted. These forms must be signed by all of the following:
 - i. Junior Exhibitor
 - ii. Parent or Guardian
 - iii. Agricultural Science Teacher (AST) or County Extension Agent (CEA)

- c. **Medication received prior to the show:** In instances where an animal has been administered a drug that is FDA-approved for its species, the exhibitor must be aware that the time it takes for all drug residue to completely clear the system **is generally longer than the labeled withdrawal time** for most drugs and varies from animal to animal. Adequate time must have passed so that an exhibitor's animal does not test positive for drugs upon arrival. Once the animals arrive on the S.A.L.E. Grounds, they must remain free and clear of all residues of medications, drugs, chemicals and other substances. Those animals that have consumed or been given, even under the care of a licensed veterinarian, any type of performance enhancing medication, drug, chemical or substance, including but not limited to steroids, diuretics, anti-inflammatories, tranquilizers and pain killers within the residual clearance time, **are ineligible for competition. Exhibitors with questions regarding medications or eligibility should consult with the Official San Antonio Stock Show & Rodeo Veterinarian prior to competition.**
- d. **Medication during the Show:** The Official Show Veterinarian Office is located at the north end of Animal Adventures/Cattle Barn #2. For the convenience of exhibitors, the San Antonio Stock Show & Rodeo arranges to have veterinarians available; however, they do not donate their services or medications. Fees should be discussed before treatment. Additionally, it is the exhibitor's responsibility to properly communicate to the veterinarians if the animal is eligible for further competition. **All medication and treatment administered during the livestock show must be administered by the Official San Antonio Stock Show & Rodeo Veterinarian** and a written medication record must be filed. Animals receiving performance enhancing drugs (including, but not limited to, steroids, diuretics, anti-inflammatories, tranquilizers and pain killers) in this manner are ineligible for competition. The Official Show Veterinarian is authorized to remove any animal from competition if the health, safety, or welfare of the animal is in question.
- e. **Drug:** The term "drug" shall mean any substance the sale, possession, or use of which is regulated by federal, state, or local law or regulation, as well as any substance used by the medical or veterinary professions that affects the circulatory, respiratory, muscular, skeletal or central nervous system of any species of livestock. If drugs are used by the Official Show Veterinarian to treat a recognized disease in market animals, the withdrawal times listed by the drug manufacturer will be strictly followed.
- f. **Beta-agonists:** S.A.L.E. will not tolerate the presence of ractopamine hydrochloride (re Optaflexx™; Paylean®) in market entries other than market steers or market barrows, respectively. S.A.L.E. will not tolerate the presence of ractopamine hydrochloride (re Topmax™) in Market Poultry, specifically all turkeys and broilers. S.A.L.E. will not tolerate the presence of zilpaterol hydrochloride (re Zilmax®) in any market species or breeding animal.
- g. **Inspection/Testing:**
 - i. Each exhibitor, by entering or exhibiting an animal at the San Antonio Stock Show & Rodeo, agrees that any animal entered by him or her may be subjected to inspection or examination by any veterinarian appointed by S.A.L.E. and that S.A.L.E. may subject any such animal to any tests, sample-takings, or inspections that S.A.L.E. deems necessary or appropriate, including but not limited to testing for drugs or other substances, at any time. S.A.L.E. shall have the right to conduct or have conducted for it all tests, inspections, or analyses it deems appropriate or necessary, including but not limited to ultrasound, D.N.A., blood, tissue, and urine laboratory analysis, on any animal entered in or exhibited at the San Antonio Stock Show & Rodeo. 10. **Partnerships:** Partnership animals are not eligible in the Junior Livestock Show. Co-ownership of some animals in the breeding show may be eligible based on Validation Rules. Refer to Special Rules for respective show for more details.
11. **Ineligible Animals:** Any animal that has been sold during the feeding period via private treaty or public auction is ineligible to show. If ownership changes or has the possibility of changing through a sale offering (including animal(s) purchased back by the exhibitor), regardless of method or length of time, that chain of animal ownership is considered broken and the animal is ineligible. This specifically excludes animals sold at the local or county level at a Premium Auction, where the animal in question never had the possibility of changing ownership. Any animal that has sold at auction at any major livestock show is not eligible for the Junior Show.

12. **Ineligible Exhibitor:** A Junior exhibitor who has placed a Grand Champion Pen of Commercial Steers, Market Steer, Market Lamb, Market Barrow, Market Goat, Market Turkey (Hen or Tom), or Market Broiler at any prior San Antonio Stock Show & Rodeo is not eligible to enter the Department in which that Grand Champion was selected.
13. **Double Entries:** Animals shown in the Junior Show may also be shown in the Open Show if classes are available. See instructions in the Special Rules of each department.
14. **Exhibitor Substitution:** Entries in the Junior Show must be shown by their owner. Exhibitor substitutions may be allowed under the conditions outlined below. In all cases, the Department Superintendent must approve the exhibitor substitution and will do so only if all conditions are met.

Substitute exhibitors may show only one project (except in departments which exhibitor may enter more than one project), in addition to their own project, in each Junior Department. Substitute exhibitors must be entered and exhibiting their own project in the respective department in which they are serving as a substitute. An exhibitor of a past grand champion in a respective junior market animal department is not eligible to serve as a substitute exhibitor within that department.

- a. ***Substitution A - Other School Activity:*** This request must be made on the Official San Antonio Stock Show & Rodeo Exhibitor Substitution Form provided by Show Management. This request must be accompanied by a statement, signed by a School Administrator, on school letterhead stating the specific reason a substitute is requested. The completed Official San Antonio Stock Show & Rodeo Exhibitor Substitution Form and the statement must be submitted to the Department Superintendent prior to the start of the respective Show. Attending school or practice does not constitute as an Other School Activity. Examples of Other School Activities are UIL events, school sports, or similar events.
- b. ***Substitution B - Sickness:*** This request must be made on the Official San Antonio Stock Show & Rodeo Exhibitor Substitution Form provided by Show Management. This request must be accompanied by a statement, signed by a Physician, on his/her letterhead. The completed Official San Antonio Stock Show & Rodeo Exhibitor Substitution Form and the Physician's statement must be submitted to the Department Superintendent prior to the start of the respective Show.
- c. ***Substitution C - More Than One Entry In A Class or the Exhibitor Has Entries In More Than One Department Showing At The Same Time:*** This request must be made on the Official San Antonio Stock Show & Rodeo Exhibitor Substitution Form provided by Show Management. The completed Official San Antonio Stock Show & Rodeo Exhibitor Substitution Form must be submitted to the Department Superintendent prior to the start of the respective Show.

In any of the three situations listed above, or in the case of an emergency, the Department Superintendent may use his/her own discretion as to whether a substitute showman will be allowed. If a positive decision is rendered, the substitute must be from the same school, FFA Chapter, or 4-H Club as the original exhibitor with the following two exceptions:

- i. The original exhibitor is the only exhibitor from that school, FFA Chapter, or 4-H Club entered in that Department.
- ii. All other members from that school, FFA Chapter, or 4-H Club are exhibiting at the same time.

In either case, any junior exhibitor, who is entered and exhibiting in the respective department, meeting the approval of the Department Superintendent may exhibit the animal.

15. **Fitting:** The exhibitor is expected to feed, care for, fit, and exhibit their animal/project while at the San Antonio Stock Show & Rodeo. If needed, the exhibitor may have the assistance of the exhibitor's family, AST, CEA, Local County/Chapter Adult Volunteer or other 4-H or FFA members. Any project fed or cared for by a custom fitter is not eligible. A custom fitter is considered anyone who is not a family member, AST, CEA, Local County/Chapter Adult Volunteer or another 4-H or FFA member. Violators of this rule may be barred from future participation.

16. **Project Care:** Exhibitors must remain in charge of their project(s) and care for them for the duration of the show at all times. If needed, the exhibitor may have a competent caretaker (must be a family member of the exhibitor, AST/CEA other 4-H/FFA member, or Local County/Chapter Adult Volunteer) care for the project(s). However, the exhibitor is the absolute insurer of and is responsible for the condition of their animal/project(s). Show Management reserves the right to decide what constitutes acceptable treatment of animal projects. Unacceptable treatment of animal projects will not be tolerated and could result in immediate disqualification of the exhibitor along with his/her club/chapter.
17. **Junior Auction Animals:** All placing Market Barrows, Market Broilers, Market Goats, Market Turkey Hens, Market Lambs and Market Steers must be sold through the Junior Livestock Auction. Animals sold in the Junior Livestock Auction must remain under the exhibitor's care and at his/her expense for the duration of the Show, and be displayed under the direction of the Show. The Junior Livestock Auction is limited to placing animals. Decoration of market animals for the Junior Livestock Auction is prohibited; animals must be presented for Auction in their natural show state (i.e. no glitter, paint, balloons, etc. allowed).
18. **Junior Livestock Auction Exhibitors:** Exhibitors with projects eligible for the Junior Livestock Auction need to be aware that auction procedures may dictate that an exhibitor is required to walk a designated project across the auction block in place of their own project, or the exhibitor may be required to walk across the auction block without a project. The exhibitor must present his/her project for the Auction or the project will be sold as a no-place. Exhibitors who are unable to attend the Junior Livestock Auction may request a substitution. This request must be made on the Official San Antonio Stock Show & Rodeo Auction Exhibitor Substitution Form provided by Show Management. Auction Exhibitor Substitutions must be approved by Show Management.
19. **Terminal Shows:** This is a terminal show for Commercial Steers, Market Barrows, Market Goats, Market Lambs, Market Poultry and all placing Market Steers. All Commercial Steers, Barrows, Goats, Lambs, Poultry and placing Market Steers brought onto the grounds must go to market. Non-placing Market Steers may be sold at the market price or they may be released.
20. **Sift, Non-Place, Premium, and Auction Checks:** Owners will be paid by the Commission Company for sifted and non-placing animals based on official turn-in weight. Projects that weigh less than the designated allowance within the specific department may be documented, sold on the re-weigh weight, and the exhibitor will be administered at \$20 office handling fee which will be deducted from their floor check. Checks will be mailed directly from the Commission Company for projects that do not qualify for the Junior Livestock Auction. If applicable, premium monies for class placing will be distributed by the San Antonio Stock Show & Rodeo and mailed to the 4-H or FFA address. Auction sale checks will be issued by the San Antonio Stock Show & Rodeo Junior Livestock Auction and may be mailed separate from premium checks or commission checks (floor) to the 4-H or FFA address.

Market Animal Disposition

The San Antonio Stock Show & Rodeo strives to ensure a fair price for market animal projects. Market conditions may dictate the sale of market animals be conducted through local terminal markets (i.e. sale barns, etc.). Animals should be in accordance with all representations throughout the validation/ownership period. Any animal deemed unmerchantable due to lameness, illness, blindness, etc. will receive no value.

21. **Animal Load-Out:** It is the responsibility of each exhibitor to deliver his/her animal to the designated load out area and that all documentation has been appropriately filed and completed.

ANIMAL HEALTH REQUIREMENTS

San Antonio Livestock Exposition, Inc. (SALE) officials are allowed to impose animal health regulations that are more restrictive than those imposed by the Texas Animal Health Commission (TAHC). Specific TAHC regulations will supersede the SALE requirements if there is a dispute between the two in which S.A.L.E. rules are less restrictive than TAHC regulations. The following summary is a condensed version of the Texas Animal Health Commission regulations. Please contact the Texas Animal Health Commission at 1-800-550-8242 or visit their website, at <http://www.tahc.texas.gov/regs/entry.html>

SALE considers itself an **interstate** (accepting entries of livestock and poultry from within Texas and from other states) show for livestock entries. Due to animals from other states being present on the grounds, regulations concerning **interstate** shows must be followed. Exhibitors with livestock originating outside the State of Texas are encouraged to contact their state Animal Health officials to confirm specific requirements, if any, their state may impose on animals returning from a Texas show.

Certificate of Veterinary Inspection (i.e. CVI, Health Certificate, Health Paper) must indicate that the accredited veterinarian found the animals or fowl to be free of symptoms or evidence of communicable disease and that all tests, immunizations or treatments required by the Texas Animal Health Commission were completed. The certificate is required to accompany animals and fowl entering the State of Texas as stated in the following summary of entry requirements. ***This certificate may include certain required blood tests and identification markers. Please be sure that the veterinarian is comfortable with the requirements required of the TAHC. The SALE Show Veterinarian, Dr. Ben Espy, may be contacted at 210-861-4765 should there be any questions.***

Prior Entry Permits are required as noted for specific classes of livestock. Permits may be obtained by calling (800) 550-8242 or (512) 719-0777, 24 hours a day, or by writing the Texas Animal Health Commission, 2105 Kramer Lane, P. O. Box 12966, Austin, Texas 78711-2966.

CERTIFICATES OF VETERINARY INSPECTION WILL BE CHECKED AT THE SALADO CREEK PROPERTY STAGING AREA.

S.A.L.E., along with the Texas Animal Health Commission, is committed to protecting animal health in Texas. Accordingly, S.A.L.E. fosters the animal health requirements set forth by the state of Texas. Due to the nature of regulations set forth by the Texas Animal Health Commission, and unknown requirements after the posting of S.A.L.E.'s Premium List; S.A.L.E. encourages exhibitors to contact their state Animal Health officials to confirm specific requirements as late as January 1, 2022.

10. For females being shown in the three oldest classes (females calved Jan. 1 - Dec. 31, 2019 for Spring Shows), exhibitor must have a certificate of pregnancy issued by a licensed veterinarian to be presented to show officials at time of check-in or registration paper check. The show reserves the right to perform pregnancy determination by palpation for females in the above classes at any given ABBA approved show if an official protest has been filed. Females exhibited in the last class at the Spring Shows MUST have a calf at side. For Fall Shows the last class of females is required to have a calf at side also. The only exemption from this rule will be cows that have already weaned a calf and a registration certificate of the calf MUST be presented to the judge.
11. All bulls will be shown with a nose ring or nose restraint with lead attached. For bulls being shown in the oldest class, the exhibitor must have a certificate issued by a licensed veterinarian stating the bull has produced viable semen. The certificate must be available for inspection by the judge on request.
12. All group classes must be held by a handler in the show arena to be placed. At the International, National, and any other participating show, the Original Registration Certificate or Original Copy (Blue with COPY across it) of each animal entering the ring for the group classes must be presented to the Show Official for parent verification. In an attempt to accommodate the exhibitors, the registration certificates of animals being exhibited in the group classes will be checked in advance at a specified time. Two animals for Natural Produce, four head for Embryo Produce and six head for the Get of Sire classes can be checked allowing the exhibitor to make the final selections prior to the show. If an exhibitor does not want to check papers early they would then have to bring papers on each animal that will enter the ring, at class check-in.
 - a. Embryo Produce-of-Dam: Two animals from the above classes produced by one dam by embryo transfer either or both sexes may be represented. No ownership requirement.
 - b. Natural Produce-of-Dam: Two natural born animals produced by one dam from the above classes, either or both sexes may be represented. No ownership requirement.
 - c. Get-of-Sire: Four animals from at least two dams by one sire from the above individual classes, both sexes represented. No ownership requirement.
13. No exhibitor shall be permitted to show more than one produce or embryo produce-of-dam per dam.
14. Cows that are exhibited with calves at side must be in a lactating stage. Calves must be shown and exhibited with their dams and said calves must not exceed 240 days of age on day of judging. The judge will be made aware by the ring steward for those cows whose calves are ineligible to show by this rule.
15. Cattle will not be allowed to show if their switches have been balled or glitter applied to their skin.
16. Color Classification Rule: For animals exhibited in ABBA approved shows, the following rules will apply:
 - a. The ABBA Color Chart will serve as the official breed resource for identifying the proper hair coat of registered Brahman cattle (charts are available from ABBA)
 - b. In order to show in the Red Show, an animal must have a minimum of 3 Red ancestors in their 3-generation pedigree. An animal with less than 7 out of 14 Red ancestors in the 3-generation pedigree may not show until color classified.
 - c. Animals will be color classified by the ABBA Color Committee in order to compete at the International, National, Kick-Off Classic and All-American Shows. The Show Committee also has the right to color classify at any ABBA Approved Show unannounced.
 - d. The ABBA Color Committee shall consist of 3 primary members and 2 alternates, all with experience in the beef industry and with at least 2 of the members being ABBA Directors who are non-showing members. The Color Committee will be appointed by the ABBA President and will show for the full show year.
 - e. Animals will be color classified by their predominant hair color based on the ABBA Color Chart.
 - f. Only if an animal is unable to be classified based upon the ABBA Color Chart, the animal's pedigree may be used to aid in color classification.
 - g. Once classified, the animal's paper will be stamped with the color classification and remain in that classification throughout its show career. Appeals can be sent to the Executive Committee within 30 days.
 - h. If any animal is reclassified by the Color Committee, the ABBA must provide corrected papers to the current owner of that animal within 30 days of the reclassification at the owner's expense.
 - i. Animals shown in group classes must show in the group class of the registered color of their sire for the Get-of-Sire and the registered color of their dam for the Produce-of-Dam (ET & Natural).
 - j. Both the exhibitor and the owner of an animal that is shown in the wrong color division after being color classified will be ineligible to show any animals for 13 months following the infraction. The animal in violation will be classified for its entire show career and will forfeit all Register of Renown points.
 - k. Any ABBA member or exhibitor has the right to protest the color classification of any animal at any ABBA Approved Show to the Show Committee in writing within 30 days. Any animals already stamped with a color classification will not be reclassified.
17. The owner of record of any registered animal entered in an ABBA approved show and/or his/her agent, exhibitor, fitter, handler and/or representative releases ABBA and its representatives from any and all liability that seller/owner might claim as a result of injury of any kind sustained before, during, or after handling cattle for any ABBA board approved activity.
18. For shows to remain approved, point shows by ABBA, they must maintain a 75 head average for the previous two years.
19. Shows must also follow the Requirements of ABA Approved Shows.

20. ALL Animals MUST have a Birth Weight submitted to be eligible to show in ABBA Approved Shows
21. The official ABBA rules & procedures governing showing & exhibiting of registered Brahman cattle supersede any rules printed in any show catalog.
22. In an attempt to insure that all animals receive an equal evaluation at the National and International Shows, classes with more than 30 entries may at the discretion of the Show Management and/or ABBA Officials be split by age as evenly as possible.
23. Any animal that exceeds the weight & measurement requirements at the International Brahman Show, National Brahman Show, All American National Junior Show or any other designated show where weights & measurements are taken will be ineligible to show at that show and any future ABBA Approved Shows until the next show that weights & measures are taken when they can requalify. Any animal that exceeds the parameters and is shown at an ABBA Approved Show before requalifying will be ineligible to show their remaining career. Both the exhibitor and owner of the previously disqualified animal that is shown before requalifying will be ineligible to show animals forever.

These classes will be the same for the Red Brahman Show and the Grey Brahman Show.

The International Brangus Breeders Association
P.O. Box 809; Adkins, TX 78101; (210) 696-8213

SPECIAL RULES

1. Owner of record on all animals entered in an IBBA National or Regional point show must be active members of the IBBA in good standing.
2. Animals must be registered in the International Brangus Breeders Association (IBBA) to be eligible to compete in an IBBA-sponsored show. The registration certificate (or photocopy) for each entry must be available for presentation to the Superintendent or show manager at the time entry is verified prior to judging.
3. Animals recorded in the IBBA Appendix, Ultrablack, or Ultrared registries are ineligible to show.
4. The registration number, permanent animal identification number (brand or tattoo), birth date and sire of each animal entered in an individual class must be listed on the entry form.
5. Any Brangus animal recorded in the IBBA registry that has a "Parentage Dispute" listed in its first three-generation pedigree is ineligible for participation in Brangus shows and exhibitions. If the dispute is resolved, the listing will be removed from the pedigree and show eligibility will be restored.
6. The IBBA, and its representatives, have the authority to require such tests as they deem necessary to verify the accuracy of the classification and pedigree of exhibited Brangus animals. Said authority shall extend to, and cover the enforcement of, all show rules as adopted by the IBBA.
7. UPDATED – All animals are required to have completed parent verification on file at IBBA prior to the show check-in. If an animal does not have parent verification completed at that time, they will be ineligible to show. IBBA reserves the right to collect DNA samples at any IBBA-sanctioned show. Collection will be conducted by random draw for retesting of parentage at the association's expense. If the calf at side is over 60 days of age by the date of show check-in, it must have parent verification completed by show check-in. If it is under 60 days, the parent verification of the calf is not required. Cows in the cow/calf pair classes are exempt from the parent verification requirement if they are born prior to September 1, 2019.
8. Prior to check-in, heads of breeding animals must be clipped of all hair (including topknots) and be free of scurs and/or slick spots.
9. Any animal found to have scurs and/or slick spots, or evidence of incisions, surgical or otherwise, in the following areas: head, testicles, sheath, navel or dewlap; including scars from caesarean sections, will be disqualified from showing. Animals with illegal white (white in front of the navel) or any indication of brindling (a color pattern characterized by red streaks mingled with black) are ineligible for show. Any animal upon check in which does not have a legible tattoo or brand corresponding to its registration certificate is ineligible to show. Once disqualified due to incorrect or illegible tattoo/brand, animals cannot be re-tattooed and rechecked at show. The brand/tattoo can be corrected and rechecked at the next available show.
10. In IBBA sanctioned shows, no animal may be shown that has been artificially filled with any amount of liquid at any time once the animal enters the grounds of a show. The fitter or ranch entity involved with an animal being artificially filled will be banned from the show ring for one year and the animal will be disqualified from exhibition at that particular show. The official show veterinarian may administer liquids orally, if so needed without disqualifying animal(s) from exhibition.
11. No animal may be shown that has had any foreign objects glued to or otherwise attached in a manner so as to alter its conformation or change its appearance. Animals unethically fitted to alter the conformation or appearance of the animal will be disqualified. Tail ties and hair nets used on the tail and switch are the only exceptions.
12. Paint or coloring agents of any kind are not to be used on any animal exhibited at IBBA sponsored shows. The use of aerosol products of any kind will not be permitted in the line-up area for the show. Animals will be towed in the line-up area prior to entering the show ring. Animals found in violation of these policies will be disqualified from showing.
13. All Brangus bulls 15 months of age or older that are exhibited at IBBA sponsored shows must have passed a fertility examination given by a licensed veterinarian to be eligible to show. The results of the examination must be available at check-in. Once a bull has a positive examination, retesting is not required.
14. All bulls (shown as an individual entry) must be shown with a nose ring or nose restraint with lead attached.
15. Weights and scrotal measurements will be taken at check-in at all four of the IBBA National Shows. Any bull can be weighed before they enter the show ring and cannot have more than a 7.5% gain. Anyone may protest a bull's gain and cause them to be weighed by submitting a written protest to the ethics committee prior to the start of the bull show.
16. All females 20 months of age or older exhibited at IBBA sanctioned shows, must have available at the time of check-in, a certificate of pregnancy issued by an accredited, non-owner veterinarian, or blood test results certificate. If the female is open due to being in an embryo transfer program, this fact must be verified in a written statement by a non-owner embryologist. If verification cannot be produced, the female may be allowed to participate if the exhibitor can produce a qualified veterinarian to examine the female at the show site and verify pregnancy.
17. All calves exhibited at the side of a Brangus female must be registered with the IBBA and meet all rules required for show eligibility and inspections of exhibits.

18. Animals eligible to be shown in group classes must be entered and shown in respective individual classes. Cows exhibited in the cow/calf classes are not eligible for the group classes.
19. Entries that have not complied with all of the above rules will not be eligible to show, to receive premium monies, or earn points in the IBBA's Show Sire of the Year, Show Dam of the Year, Show Bull of the Year, and Show Heifer of the Year awards.
20. All IBBA and IJBBA members will abide by the show rules as adopted. In addition, any show, fair, event or display in which Brangus cattle participate should follow these rules as adopted by IBBA. All Brangus entries are subject to the provision of a rule of the IBBA entitled "Inspection of Exhibits".

INSPECTION OF EXHIBITS

1. The IBBA and its representative have the authority to require such tests as they deem necessary to verify the accuracy of the classification and pedigree of exhibited Brangus animals. Said authority shall extend to and cover the enforcement of all show rules as adopted by IBBA.
2. Each exhibitor shall submit his or her registered Brangus cattle to such tests and examinations as requested and/or required by the IBBA, its authorized representatives, or those of the relevant show.
3. For and in consideration of the opportunity to participate in any Brangus function each exhibitor hereby releases the Association, its officers, directors and representatives from negligence, any and all claims, suits, and judgments past, present, or future, arising from or connected with the administration or use of such test or examination and the resulting decision there from.
4. Dental Inspection: All entries may be classified for judging on an age basis and should be entered in class according to age. Teeth may be inspected by a veterinarian designated by the I.B.B.A. in order to determine whether dental development is within allowable limits for the class so entered. If the veterinarian determines that in his opinion dental development exceeds maximum allowable limits, the animal shall be moved to an older class as determined by the veterinarian and shall remain in that class until determined otherwise by subsequent mouthing or favorable appeal to the Executive Committee. If it is not possible to move an animal, the animal may not be exhibited in such show.
5. Any exhibitor desiring to dispute or challenge the results of any such test, exam, or show rule enforcement, as applied to his animals, shall do so in accordance with procedures established by the rules of the IBBA.
6. Appeal: An appeal from the decision of the veterinarian or designated association representatives designated by the I.B.B.A. under sections 2 and 6 of the Inspection of Exhibits may be made to the Executive Committee of the IBBA if the following requirements are satisfied: 1) the appeal is in writing and is signed by the appealing party; and 2) the appealing party files the written appeal with the IBBA Executive Committee as soon as possible after the veterinarian's or designated association representative's decision is rendered and in any event within six (6) hours of the time the veterinarian's or designated association representative's decision was made. If an appeal satisfying the foregoing requirements is filed with the IBBA Executive Committee, the Executive Committee shall hold a hearing at which the appealing party and the veterinarian or designated association representatives whose decision is being appealed shall present statements and other evidence that are relevant to the matter, following which the Executive Committee shall render a decision which shall be final and conclusive.

IBBA DNA TYPING FOR PARENTAGE VERIFICATION

Each Brangus animal for which an entry application or registration is received may be subjected to a DNA genotyping test in order to verify accuracy of parentage, according to Rules 5, 6, and 7 of the International Brangus Breeders Association (IBBA) Show Eligibility and Inspection of Exhibits. At selected shows and fairs, tail hair samples will be taken from all division champions and reserve division champions, as well as additional random animals, for the purpose of verifying parentage. Staff or a representative of IBBA will supervise the collection of tail hair samples, which can be taken at shows, fairs, and events where IBBA contributes premium money or where IBBA staff personnel participate. If a recorded parent is excluded (as a parent) as a result of DNA analysis, the owner of the animal may request, at his or her own expense, further determination of the actual parent. Failure to determine the sire and dam will result in the animal being listed in the IBBA Registry as a "Parentage Dispute," and the animal will be ineligible for future shows and exhibitions.

RULES VIOLATION POLICY

1. A show rules violation to be a valid complaint must be accompanied by a written statement describing the violation, the perpetrator of the violation, and signed by an active member of the IBBA. This written complaint will be presented to an Ethics Committee consisting of the Chairman, Vice-Chairman, Executive Committee Liaison, and an appointed member. All four people will be current members of the show committee. A minimum of two of these members must be present at the Show where the rule violation occurs. The Chairman shall appoint other members of the Show Committee to ensure a minimum of two on this committee at each IBBA approved show.
2. The Committee shall rule on the validity of the rule violation. The committee shall visit with the perpetrator, present the written complaint, and make a ruling on the complaint if valid.
3. The perpetrator is entitled to appeal any decision made by the Ethics Show Committee to the Executive Committee of the IBBA but the Executive Committee has the right to disqualify the perpetrator from the IBBA approved show after hearing an appeal. The Executive Committee's decision will be final.

4. Without the Executive Committee's decision, the perpetrator cannot be disqualified from this particular IBBA approved show. However, the animal can be disqualified by the Ethics Committee if the rule violation is deemed valid.
5. For and in consideration of the opportunity to participate in any Brangus function, each exhibitor hereby releases the Association, its officers, directors and representatives from negligence, any and all claims, suits, and judgments past, present, or future, arising from or connected with this policy and the resulting decision there from.

These classes will be the same for the Red Brangus Show and Brangus Show

Each entry must have been recorded on a 4-H or FFA Steer Validation Form Master List completed by the County Level State Steer Validation Committee. Failure to comply with the rules and regulations of the Texas Steer Validation Program in any manner will result in immediate disqualification.
6. **Show Check-in Procedures:** Exhibitors must check-in using materials provided by the Competitive Events office. Check-In must be completed by 4 PM the day of Check-In or be subject to disqualification. Validation Tag Number, Breed and Show Weight will be submitted at Check-In.

Exhibitors are not allowed to designate any other breed as an Alternative Breed Option other than Red Cross, Black Cross or Other Cross. e. Aesthetics	10
f. Diagnosis	15
Total	100

a. Mechanical

i. All tractor classes

- As part of the mechanical evaluations exhibitors will be asked to start and drive tractor, demonstrating all gears along with systems, hydraulics, lights, brakes, PTO, etc. Driving and some mechanical evaluation will be conducted outside after off-loading on Friday. Most of the safety criteria will also be evaluated at this time. Exhibitors may be asked to move tractors back outside Saturday for additional evaluation.
- Refer to *Driving, Mechanical & Knowledge Reference Sheet 1*– on the website for more specific information.
- NOTE: Sandblasting is discouraged except on large castings such as weights, wheels and rims and components that have no moving parts. Engine blocks and heads, transmissions, clutch housings, differential and axle housing should not be sandblasted. Also sandblasting can warp or distort sheet metal parts and will impact aesthetics. Sand remaining from sandblasting can result in major damage to tractor. Evidence of sand will result in deducting points in Mechanical.

ii. Restoration Classes 1401, 1402, & 1501

- To include the mechanical restoration of all systems including Engine, Transmission and Final Drive.
- Including components – fuel (carburetor or diesel pump), cooling, ignition, exhaust, clutch, brakes, steering, starting, lighting, charging, hydraulics, 3 point and PTO. Some tractors may not have all of these.

iii. Reconditioning Class 1502

- Will include only those systems or components that need major repairing or reconditioning. (Those systems that were repaired or maintained should be identified in the Table of Contents see below.) Exchanging parts, for example removing a diesel pump and taking to town to put on pump stand is not considered a major repair. It should be identified under Engine in reports but must entail proof of diagnosis in determining pump malfunction to be awarded diagnostic points. Mechanical is worth 30 points in class 1502. Diagnostics is an important part of analyzing the mechanical components. Diagnostic points are awarded in its own Category.

- Will include maintenance items. This may be an extensive list such as maintenance required for warranty. Examples of maintenance could include – cooling, fluids, hoses, belts clutch adjustments, air conditioning and tappet adjustments. Some maintenance items may require checking codes on tractor display which may require a special computer to help diagnose error codes. These will require the cooperation of the dealer. Diagnostic skills performed in the performance of major mechanical and maintenance will be awarded points in the Diagnosis criteria, see below.

b. Knowledge & Presentation: (All tractor classes)

- Knowledge points have been increased. Knowledge is a very important criterion in meeting the JAM educational objectives.
- Judges will ask technical questions to determine the exhibitor(s) knowledge of and involvement in restoration/reconditioning. Judges may present components for exhibitors to identify, describe and discuss.
- Presentation includes showmanship (see showmanship score card) and encompasses the following: meeting public, making eye contact, introducing self, being confident, articulate, exhibiting enthusiasm and excitement when describing tractor. Display area including area around and under the tractor and additional display items such as Owners Manuals, video equipment including computer display and worn or broken parts replaced in restoration or reconditioning.

c. Documentation and Research: (All Tractor Classes)

- Documentation is a research portfolio and should not be considered a scrapbook. Documentation must be typed (recommend word processor and spreadsheet using computer)
- Many Exhibitors use Documentation to exhibit their knowledge and understanding of Tractors and the skills necessary to Restore and Recondition them. In the photo sections, most exhibitors expand on what they are doing using two or three paragraphs in their descriptions of each system (photo section) – transmission, engine, clutch, etc.
- Tractor Judges rely on the Documentation Section in addition to questioning to ascertain the knowledge and understanding exhibitors have of the different systems and components and the procedures they used. Many of the knowledge points are determined when judges are inspecting the documents and asking questions over materials they are evaluating.
- See *Tractor Restoration Documentation Template (PDF)* on the website. This template was prepared in 2016 and requires slight modifications for up to date documentation specifications.
- Also *Documentation, Knowledge & Presentation Reference Sheet 2* on the website has more specific information. This document also needs modified slightly. See revision for Class 1502 Reconditioning class below. All judges critique sheets are on the website.
- All documentation should be arranged in a three ring binder, using sequenced labeled dividers with a corresponding table of contents. *Suggested Table of Contents shown below will differ slightly between Restoration and Reconditioning classes.*
- Tractor documentation will be submitted at unloading. Documentation may not be altered after it is submitted.

Table of Contents - Documentation for all Classes should include Table of Contents similar to one shown below with page numbers – Refer to Template on website

I.	Tractor History – Previous Owners – where obtained, etc. (Max 1 page) Could include Picture of tractor as you found it.
II.	Restoration or Reconditioning – Mechanics Summary Report including Complexity Factors – CF (Max 1 page) Could include Picture of Completed Tractor.
III.	Expense Reports – show in spreadsheet format. Similar to BOM in project show. a. Parts – Costs of all parts and supplies – invoices included with dates. Show Total Expense including Sub Totals of OC and PE b. Opportunity Cost – OC (identified in Expense Report with OC next to dollar value) These are items which were given/donated to you – identify their value in dollars, same as if you purchased them. Show sub-total for all OC. c. Professional Expenses – PE (Identified in Expense Report with PE notation) These are expenses incurred from taking part to professional technicians. For example, taking a diesel pump to a Diesel Shop so they can put it on pump stand – diagnose and repair it. You are encouraged to be present when the technician is evaluating and/or repairing part so you can learn from this. Have picture taken of you with Professional mechanic to be included in your photos. Professional should be identified in pictures. PE expenses should be presented in a report by itself with Title: <i>Professional Expenses</i> . Should have a sub-total for this category.
IV.	Photos – (order of presentation - disassembly – evaluation – repair) All Photos should have a title or description along with identifying names of exhibitors performing the task in the picture. Teacher (AST) or CVEA and others helping you should be in a few of the pictures and identified. Most pictures should be technical in nature – using precision tools – micrometers, torque wrenches, small hole and telescoping gauges, adjusting tappets or clutch, timing engine, diagnosing hydraulic system with pressure gauges, etc. Most exhibitors use two or three paragraphs to explain what they are doing in the pictures in different sections. See example <i>Template</i> . a. No more than 120 pictures with 2 pictures per page. Cover sheets not required on picture pages. b. Photos of high quality – could be on photo paper – excellent contrast and brightness. Judges will also evaluate safety issues in the pictures – gloves, face shields, spray painting, etc. c. Photos shown by sections. Sequence may be different from that depicted below. (Recondition Class will only have pictures in sections – components they diagnosed and repaired.) i. Engine ii. Clutch iii. Transmission iv. Final Drive Train – Transmission & Final Drive could be combined in a Power Train Section v. Ancillary & External components could include steering, operator comfort, controls, fuel, air filter, turbo, electrical, cooling hydraulics, brakes, etc. vi. Sheet Metal and finishing – Reconditioning class should include Aesthetic items here also. For example, was a cab kit installed? vii. Rims and Tires viii. Eye Appeal item – Decals, Trim, other – Appearance Section could include: vi, vii and viii
V.	General Specifications – Examples, Tractor Fluid Capacity chart, Tractor Horsepower, Hitch Category, Torque chart for fasteners, Valve Tappet adjustments, tractor operator controls, safety items and symbols.

VI.	<p><u>Recondition Class only</u> – <i>Equipment Check-in Sheet</i> and <i>Service Preliminary Sheet</i>. These sheets are forms tractor dealers use when tractor or machine brought to them by farmers for repair. It is suggested that you use the local dealers' forms/sheets.</p> <p>a. <i>Equipment Check-In sheet</i>. Customers helps the dealer fill this form out when customer brings in equipment or tractor to be repaired. It includes all the information regarding customer, such as name, address, phone, email etc. It also identifies the machine(s) and or tractor(s) brought in. An important part of this form is asking the farmer to identify or describe the problem (issue) – why machine was brought in.</p> <p>b. <i>Service Preliminary Form</i>. Technician fills out this form after he has inspected the machine and list all items that are needed to repair or fix problem. Form is presented to customer for him to sign authorizing necessary parts and repairs prior to repair.</p>
VII.	<p>Research SDS and/or PI. ASABE standards including PTO and Hitch Category. See Special rule 21. All relevant Judges Check & Reference sheets. Letters, correspondence with those who advised or helped you with tractor. Owner's Manual and Parts manuals along with IT manuals are usually too large to show here. They may be books themselves but you could reference those displayed. You may also want to identify those items or parts that you have on display.</p>

- d. **Safety:** Safety is measured in a number of ways. See *Aesthetics, Authenticity & Safety Reference 3* on website. All equipment that was original to the tractor should be in place (includes all shields and decals) Tractors must be in a safe operating condition and the following safety procedures must be followed.
- i. Judges will inspect photos to see if tractor was repaired in a safe environment including painting facilities, exhibitors wearing safety glasses and or face shields, gloves, proper and safe clothing. Proper use of hoist and lifting devices, combustible materials stored properly, etc.
 - ii. Safe procedures must be followed in unloading and loading the tractor. Specific rules and regulations related to the driving, unloading and loading the tractor are posted on the website. These will be strictly adhered to and safety points deducted for infractions.
 - iii. Basic rules for driving, unloading and loading tractors.
 - 1) Tractors are unloaded and loaded only under the direction of show officials. No tractor will be offloaded without supervision of show official.
 - 2) Tractor driver must have experience in driving and loading tractor on trailer hauling it to show. This driver must have the approval of the AST or CVEA. Leader certifies that driver meets these criteria. Diver unloading and loading the tractor may or may not be the exhibitor but safety point deductions will be attributed to that tractor based on the procedures used in offloading and loading.
 - 3) Tire pressure and tire coating will be inspected along with controls, including brakes, throttle and clutch prior to offloading. Tires should not have more than recommended tire pressure.
 - 4) All ramps must be fastened to trailer and designed with proper surface to provide traction. This is especially important in wet weather. Trailer must be equipped with middle ramp if hauling tricycle tractor.
 - 5) It is the responsibility of the driver to make sure that at least 10 ft. of area around the trailer is clear. Only approved personal may be in this area.
 - 6) Truck driver must off load any projects that on the back of the trailer hauling the tractor at the barn where directed. Fork Lifts and other machinery will not come into the tractor unloading area.
- e. **Aesthetics:** Overall appearance of tractor including workmanship and finish. Aesthetics will be evaluated for all tractor classes. Items to be considered include but are not limited to the following.
- i. Metal preparation prior to painting or waxing.
 - ii. Painting a tractor in the Reconditioning class is optional. Detailing tractor is required even if tractor is not painted.
 - iii. Reconditioned tractors that are not painted must have been pressure washed including engine compartment. Those that are not painted may be waxed.
 - iv. Painting and finish in Restored Tractors. Clear coating is not recommended. Paint color should be original. See *Aesthetics, Authenticity & Safety Reference 3* on the website.
 - v. Detail and completeness of components – cabs, steering wheels, seats, controls and gages, wiring harness, hoses and belts, etc.

- f. Authenticity:** (Restoration Tractor classes only) Must be as original as possible. See *Aesthetics, Authenticity & Safety Reference 3* on the website. Items included: Authenticity is not considered in the Repair and Reconditioning Class 1502.
- Paint color, fasteners, and other components such as magnetos, carburetors, exhaust systems
 - Mechanical systems – fuel, electrical, engine, transmission, final drive, PTO and 3 Point hitch, cooling, etc.
 - Original Serial plates in place and unaltered serial numbers.

Note: Authenticity – does not prevent updating or improving the efficiency and performance of a tractor for field work using manufactures upgrades. This applies especially for the later model tractors. Examples would be replacing the refrigerant R12 and equipment with 134A. Other examples include improved mechanical parts such a hardened valve seats, improved cylinders, rings, pistons, seals, and bearings. Alternators and other external parts should not replace generators, etc., on older tractors shown as antiques. Six volt systems should not be converted to twelve volt.

Diagnosis: (Recondition Tractor Class) Diagnosis should be documented in the explanations in Documentation & Research book especially when explaining the systems – component analyzed with the Photos. Dealer Forms identified in Documentation above require diagnosis. In later model tractors error codes are generated in the display or computer on tractor to help mechanic determine the problem. Exhibitor may have the dealer's mechanic to help him with this diagnosis in that school may not have the necessary equipment. Student should be involved in the process and should explain and document it in his documentation package. It is hoped that this will help develop a connection with the dealer and maybe eventually turn into an internship or employment. Teacher/leader should go with the student to ask the dealers cooperation. It may be that the dealer can help the students by providing them one of the tractors that has been brought to him for repair. The dealer performs a lot of the required warranty maintenance items on the later model tractor in addition to repair. Some of these maintenance items are technical and will require knowledge and skills to perform the required maintenance. Repair and extensive Maintenance will meet the Mechanical requirements to justify entering a tractor in the Recondition Class because in many of these diagnostic analysis will require reading and interpreting technical manuals.

- g. Complexity Factor:** Up to 15 points may be added to reward exhibitor(s) for difficulty or sophistication of work conducted on tractor. Examples could be on tractors that have AC units and Cabs, sophisticated transmissions, hydraulic, electrical systems. Work and research shown rebuilding or repairing original parts beyond the normal repair instead of purchasing new ones. Welding cast iron parts where preheating and post heating was necessary, building up a shaft and turning down on lath or hard surfacing or building up teeth on a gear are all examples. Evaluating tractor on a PTO dynamometer could be considered as a Complexity Factor and is also a diagnostic function.

28. Additional Resources

Exhibitors and leaders are encouraged to get on the website and using a monthly code to access the ASABE technical library in order to download the Tractor and PTO standards. Although these standards apply to the later model tractors, they are relevant to early model tractors and machinery, for example hitch categories and PTO sizes and number of splines. Standards identify specifications that make different machines compatible with the tractor including early model tractors. It is important for the exhibitor to learn how to search technical libraries such as ASABE print them out and interpret them. Service men working with the later model more sophisticated tractors and machines must rely on technical documents to diagnose and repair them. We also provide on the JAM website many additional technical materials to help in our educational objective. Many of these have been identified in other Sections regarding tractors.

10. **Scoring:** Point values for each separate challenge may vary, depending on the level of challenge difficulty. Penalties will also depend upon challenge design, but examples may include: knocking over pieces, restricted human interaction with robot or game pieces, excessive retrievals, etc. Points will be awarded or deducted for each round of match play. Additionally, a teamwork score will be assessed by a panel of judges and added to the match scores to form the preliminary team score. The preliminary team score determines qualifiers for finals. After each match, the team captain will initial the score sheet, indicating agreement to the points awarded. Once signed, the match score is final and cannot be challenged. The contest tabulator will review the score sheet and will correct any mathematical inaccuracies.
11. **Bluetooth and Internet Connectivity:** Bluetooth connections can be made and utilized during the Build Time. It is not allowed during the competition phase while the robot is on the playing field. No internet connectivity will be provided. Teams are advised to make sure their computer's operating system, software, and robot firmware are up to date prior to the contest.
12. **Awards:** Placings awards will be determined by the committee and are based on sponsorships. Special awards may also be given based on sponsorships and committee decision. The contest results, as announced, will be final.
13. **Participants with Disabilities:** Any competitor who requires auxiliary aids or special accommodations must contact the Livestock Office at least two weeks before the competition.
14. **Rules of Play:**
- Teams must pre-build and program a robot prior to the competition.
 - Teams will report to the designated location for check in and submit their robot and additional pieces/equipment for inspection.
 - Each team will be directed to a team pit (one 6' or 8' table and chairs). Each pit will have access to electricity to power laptops and robot batteries.
 - An orientation will be provided for all participants where show management will review the challenge, rules and scoring.
 - The design of the game and designated number of challenges will be released in advance of the contest. There will be 3 to 4 additional unknown challenges revealed contest day, during orientation.
 - Each team will have 1.5 hours for additional designing, building, programing, and testing of their robot.
 - Teams will practice and compete on the same game table.
 - If time permits, teams are allowed to make alterations to their robot design and/or program between matches.
 - Teams must report immediately to the playing field when called.
 - The robot must perform challenges autonomously.
 - Only registered contestants and contest officials will be allowed in the pit Robot Challenge areas.
 - Teams that may experience any equipment malfunction(s) may not replace the equipment with supplies outside the contest area (from leaders, volunteers, county Extension agents or contest officials). Instead, team members must work together and be creative in completing preparation without the malfunctioning equipment or visit with other teams to borrow the needed part.
 - Depending on the challenges, contest officials may provide non-Lego items that can be incorporated into the design of the robot.
 - Coaches will be permitted to meet with their team for a 10-minute time period prior to Build Time. This time should be used to help team members develop a plan and foster positive youth development. Due to space limitations, there will not be a spectator area available until the finals.
 - No cell phones or other types of communication devices are allowed in the pit or contest areas. Exceptions include the approved items listed in the Participant Rules. During Build Time and Robot Challenge, contestants are not allowed to communicate with spectators (including coaches and parents).
 - A match will range between 1 and 3 minutes in length, depending upon the challenges designed for competition. The specific time limit will be announced during the orientation. Contest officials will make periodic announcements regarding time remaining in Build Time.

- q) Teams will have two preliminary matches in which to earn points. The sum score of the two matches plus the teamwork score will determine teams that qualify for the finals. The top 3 teams in each age division will advance to the final match. If there are fewer than 3 teams in an age division, no finals will take place. The total score from the preliminary matches (match + teamwork scores) will be used for preliminary placings.
- r) Finals will consist of two additional matches. The two match scores from the final round will be added to the total preliminary score. Finalist teams will be ranked based on their total scores. Judges' results are final.
- s) Tie-breaker procedures will be announced during orientation.
 - i. Teams must clean up their pit areas prior to the awards ceremony. Teams not making the top 5 are free to leave once their pit area has been cleaned and are dismissed by contest officials.

ARENA RULES

1. Contestants will carry a halter with an attached lead rope supplied by SALE into the arena. Neither the halter nor the rope may be used as a lariat – contestants may not use the halter or lead rope to catch the calf. The animal must be caught by hand. Then, the halter must be placed on the animal as instructed in the Calf Scramble Orientation.
2. Contestants must wear appropriate clothing (jeans, SALE supplied t-shirt). No oversized/baggy jeans, , yoga pants, sweat pants, overalls, dresses, skirts, flip flops, halter tops, etc., will be allowed. Appropriate athletic shoes are highly recommended for footwear. Shoes with steel cleats are not allowed. While boots are allowed, they are discouraged because they are difficult to run in. Each contestant will be issued a numbered T-Shirt to wear in the arena.
3. Contestants may not work as a “team” – they may not provide assistance to other contestants, and they may not receive assistance from contestants or judges. Each contestant catching a calf is required to lead the calf across the finish line without assistance. After placing the halter on the calf, the contestants will not be permitted to fasten the lead rope to them in any manner.
4. If a contestant has hold of a calf by any means, to include by the tail, ear, hoof, etc., that contestant will be given an appropriate amount of time to halter the animal. Other contestants are instructed to find another calf. If said calf breaks away, it is available to be caught again (unless it has been properly scored). If two or more contestants catch a calf at the same time, the contestant closest to the head will be given an appropriate amount of time to halter the animal.
5. If a calf is caught by the tail, the contestant will be allowed an appropriate amount of time to place the halter on the calf. If the contestant fails to halter the calf in an appropriate amount of time, he/she must release the calf. The judges will make the determination and provide instruction to the contestant.
6. Poor sportsmanship will automatically disqualify the contestant. Undue roughness will not be tolerated, whether towards other participants or to the calves. Contestants may not slap, punch, kick or otherwise strike or treat the calves in any manner that would be construed as abusive. If a haltered calf lays down, contestants may not drag or strike the calf as previously described. In this case, direction will be given to the contestant in the arena as to how to proceed.
7. Scoring: Two official scorers will be positioned at the front edge of the scoring box, approximately 12 feet apart, and will face the bucking chutes. The scoring line will be the imaginary line established between the two scorers. A contestant and calf will be scored and recorded by the scorers when:
 - a. the calf is properly haltered as instructed during the orientation.
 - b. the head of the calf crosses the plane of the imaginary line between the two scorers; and
 - c. both scorers agree the head of the calf has crossed the line.Contestants must enter the scoring box through the front, between the two scorers. If they enter the scoring box from the rear, side or behind the scorers, they will not be scored.
8. There will be no fewer than 8 judges appointed per performance.

CALF SCRAMBLE FINALS

2. Alternates for the finals will be the second and third place contestants from the prior 18 performance nights.

ATTACHMENT A - LEWIS CLASS SYSTEM

There will be six (6) Lewis Classes (Class one (1) being the top Class). The Lewis Class calculation format below governs the 2021 Junior Shoot-Out. All Contestants in any of the Top Gun Classes will not be included in the Lewis Class event. After all of the Contestants in the Top Gun Classes have been removed from the overall total, the remaining Contestant scores will be listed in descending order. The remaining Contestants represent the total Lewis Class number used in the following calculations. The list of Contestant's scores will be divided into classes by placing dividing lines (original line) based on the following calculation: Total number of Contestants in Lewis Class divided by number of classes. If the result is a whole number, it is the number of Contestants for each class.

In the event that the calculation does not end up as a whole number, the whole number portion of the result is the base number for each class. The remainder is to be multiplied by the number of classes. This will generate a remaining whole number that will be less than the total number of classes. This is the number of classes that need to have one (1) added to the base number, starting with the lowest class and then moving up. When an original line is placed between a number of tied scores, the Contestants will be re-assigned as follows: Majority above the line, those Contestants below the line are moved above the line. Majority below the line, those Contestants above the line are moved below the line. Equal number above and below, those Contestants above the line are moved below the line. Only the lines with ties are moved. The original lines in all other classes remain as originally drawn. There is the possibility of having a significantly different number of Contestants for each class.
