Livestock Department Objective and Purpose

The San Bernardino County Fair is an exhibition and educational entity. The Exhibition provides education to the public about livestock and farm animals, as well as the overall agricultural industry.

Competition in the show ring provides a forum for the comparison of livestock animals, based on selected or desired characteristics and genetics. The results contribute to breeding and overall species improvement. These selected characteristics are reflected in the market, and usually follow consumer demand for a certain type of product (i.e. leaner meat). The Junior Livestock Auction provides the culmination of hard work on a livestock project.

YQCA:

The California Department of Food & Agriculture is requiring all youth exhibitors showing at Fairs throughout California in 2023, to have completed the applicable YQCA (Youth Quality Assurance) program training. This mandatory program is available online at the following link (insert link if you have it). To show at the 2023 SBC Fair, each exhibitor is required to have completed an approved YQCA training course and must be able to provide proof of completion upon request by any member of the SBC Fair staff, or any representative from the California Department of Food & Agriculture.

All “State Rules of California Fairs” as prescribed by the California Division of Fairs & Expositions apply to this fair. “State Rule Booklets” will be available at the entry office or the livestock office. www.cdfa.ca.gov/fairsandexpositions

“Jaimie Pettey” Memorial Scholarship

Jaimie’s Memorial Scholarship began in 1992, at the time of her death, with donations from numerous people and from the sale of her last two market animals – a pig that sold at the National Orange Show and a steer that sold at San Bernardino County Fair. Since that time, with continued support and generous donations from so many people, the Scholarship Fund has continued to grow. This growth has allowed us to increase the amount, as well as the number of scholarships given each year. The scholarships are received by graduating seniors within the San Bernardino County 4-H program, the FFA of San Bernardino County, and the California State FFA. The applicants submit their applications for review. The scholarships are awarded based on grade point average, participation in their respective programs, future plans, and the applicant’s need. The scholarship money received is always appreciated, and in many cases, has made a real difference in how the student can pursue their educational goals. It always amazes us to see how often the recipients of this Memorial Scholarship identify with Jaimie and feel that they really become to know her.

Jaimie showed at the San Bernardino County Fair each year and it was a particular favorite of hers. It has now become a tradition that each year an animal is donated; an exhibitor then shows and sells the animal; and the money is donated to the Scholarship Fund. We are so grateful that the fair has continued to make this an important part of the Junior Livestock Auction. It is a truly memorable experience to see the many kids, some very young and some past scholarship recipients as they all crowd onto the stage to help sell the animal. Jaimie lives on in all of these young people – those who help to make the scholarship possible and those who continue their education with the help of the scholarship. She touched many people in her short life, and she continues to touch many more still.
