

Support the Livestock Program!

We appreciate your interest! The cost of a 4-H or FFA animal project is higher than that of a commercial stockman because of the individual attention given to that animal's development. This special attention deserves a premium price, above the market price. The "break even" cost will allow the exhibitors to earn a profit margin that can be reinvested into next year's project or put away for college.

Above figures are examples only!

Resale: The animal will be automatically resold for you at the current market price. You will not take possession of the animal or receive any meat. You are responsible only for paying the difference between your bid and the resale price. Rabbits are sold resale only. The resale price will be calculated using the weight of each animal.

Custom: The animal will be processed for you by the butcher (cut & wrap facility) of your choice, after which you will take possession of the meat.
