## **Photos**

Image file types allowed: jpeg, png, gif, bmp

Image file max storage size: 8 MB

A typical smartphone takes photos that are only 2-3 mb. 8 mb has proven to be more than enough for image files.

- Take the photo Landscape.
- Take your photos with the subject centered in the frame.
- Make sure there is space between the subject and the borders of your photo. (Do not make your subject the entire photo)

## **Videos**

1 to 2 minute video, to include the following

Name and Club/Chapter/Grange/Independent  
Animal name and species  
Animal weight (possibly projected weight goal?)  
Details of project (daily tasks, costs, routines)  
What you are learning - goals  
Market your animal
