THANKS
to our sponsors

Once fair is over your job is not quite done. One of the most important and forgotten steps is writing a thank you card to those who made your experience possible. Be sure to take the time to write thank you letters to **your buyers, those who did add-ons towards your project, and award sponsors**. In addition, make sure to take the time to thank your advisors, project leaders, parents and anyone who has helped you with making you project a success.

Thank you cards should be hand written in black or blue ink. Standard stationary designed for correspondence or large size greeting cards (blank inside) should be used. Minimum size of greeting cards is 5" x 7", minimum paper is 6" x 9". Binder paper (lined paper of any kind) plain printer paper and index cards are unacceptable. Notes should be a minimum of 25 words for exhibitors up to 11 years old. Notes should be a 50-word minimum for those exhibitors 12 years and over.

Here is a basic outline of a thank you card:

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the “IAFE Code of Show Ring Ethics,” fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- 1) All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- 2) Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- 3) Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
- 4) Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state, and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

- 5) Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- 6) The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- 7) Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- 8) No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- 9) The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
- 10) The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expos* and any special notices to members.

The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Livestock Exhibitors, Advisors, Leaders & Parents:

Whether you are exhibiting animals or just admiring them from afar, preventing animal-borne diseases begins with clean hands, gear, and for exhibitors, clean surroundings. The Silver Dollar Fair and the Play It Safe Campaign is asking assistance from Exhibitors, Leaders, Advisors and Parents in procedures that prevent disease. It is our hope with your help we can prevent animal related diseases such as E.coli 0157:H7.

The Fair asks that you practice the following guidelines, and that you help educate the public about these concerns.

If you have an animal of any kind at the Fair:

- Do not eat or drink in animal areas or Livestock Barns.
- Always wash hands thoroughly before drinking, eating, or handling food
- Always wash hands with soap and water after touching animals, pens, and enclosures, and after coming in contact with animal bedding and/or feces.
- Please ask children not to climb on animal pens or other enclosures. Ask children not to sit or play on the ground in animal areas.
- Make sure animal feed/water is not accessible to the public.
- Store tools for waste removal in areas not easily accessible from the public.
- Promptly remove manure/soiled animal bedding from area. When cleaning pens, place used bedding in waste bins.
- Assist in keeping aisles clean and free of animal & bedding waste
- Disinfect animal-area hard surfaces whenever possible.

Remember these important tips and help educate fair goers with these important tips:

- Keep food and beverages out of animal areas.
- Assist young children in washing hands.
- Toys, pacifiers, spill-proof cups, baby bottles, blankets & other personal items can become contaminated – keep personal items away from the animal's environment. Wash contaminated items before returning to children. It's best to keep them put away in a sealed bag.
- Wipe off wheels of strollers or wagons brought into animal areas. The wheels have touched the ground and must be cleaned before being handled or loaded back into your vehicle.
- Don't allow children to sit or play on the ground in animal areas.

Hand-washing Stations are in several locations in the Livestock Area for your convenience and the convenience of Fairgoers. REMEMBER: Always wash your hands before consuming food or beverages!

The Play It Safe campaign is produced in partnership with the California Department of Food and Agriculture's Division of Fairs and Expositions, Western Fairs Association, and the California Fair Services Authority.

ELECTRICAL EXTENSION CORD & POWER STRIP SAFETY

- **ALWAYS** make sure that cord is rated for the load (amperage) it will carry. Cord size vs. Load rating is as follows: (awg = American wire gauge)
 - 10 awg cord = 30 amps max.
 - 12 awg cord = 20 amps max. (Best size overall)
 - 14 awg cord = 15 amps max.
 - 16 awg cord – 10 amps max.Note: The larger the awg number the smaller the wire.
- **ALWAYS** make sure the cord is rated for hard usage.
- **ALWAYS** inspect for defects such as fraying or broken insulation, exposed conductors, or missing ground blade.
- **DO NOT** drape/run a cord over/through metal framework, ductwork, pipe, walls, or doors. This could damage the cord and cause a shock/fire hazard.
- **DO NOT** use an extension cord that has the unused length coiled or looped. This generates heat and could cause a fire.
- **DO NOT** allow electrical cords to lay on the ground outside of the exhibitor's stall pen or tack space or in any public walk spaces.
- **DO NOT** alter a cord to perform a task it is not designed for.
- **DO NOT** remove the grounding prong from a three-wire cord to fit the plug in a two-pronged receptacle/cord.
- **DO NOT** plug extension cords together to reach an outlet. One appliance per cord unless the cord is rated, and factory supplied with multiple plug-ins.
- **DO NOT** use adaptors to plug in extra appliances into extension cords.

The Outstanding Cattle Feeder Contest is designed to reward youth that focus on feeding management and carcass quality of their projects.

The following requirements must be met to enter:

1. Steer must be entered in the Silver Dollar Fair as a market steer (will be verified).
2. Steer must meet all Silver Dollar Fair requirements and be sold in the Junior Livestock Auction.
3. Entry in fair DOES NOT automatically enter youth in this award, they must complete the entry form available at <https://docs.google.com/forms/d/e/1FAIpQLSeOrp-oJP8iajo7Tozo92MenUXwpRu9VtvbeT254bBuX6e4jw/viewform>.
4. Entry information must match the one entered in the Silver Dollar Fair.
5. Entries are open from February 15 – February 28 of the current year.
6. Final feeding data must be reported via google form between May 25 – May 31 of the current year.

Once entered, participants will receive a form to assist tracking total feed fed to their steer from their initial weight date through fair. The purpose of tracking feed amounts is to estimate feed efficiency of the steers. There are several ways to do this - keep track of total bags fed, weigh feed daily, know how much a "scoop" weighs and track scoops. Points will be earned for average daily gain (35%), feed efficiency (35%), and carcass value (25%). Points will be combined into an index value to allow for ranking of entries. Carcass value will be determined as follows:

- Base Price (determined annually)
- Premiums or discounts added or subtracted based on quality grade characteristics
- Premiums or discounts added or subtracted based on final yield grade
- Discounts subtracted based on light/heavy carcass weights
- Discounts subtracted based on B maturity or older

Outstanding Lamb Feeder Contest

ENTRIES OPEN: March 15, 2023

ENTRIES CLOSE: March 28, 2023

If you have any questions, email Dr. Celina Phillips at crphillips1@csuchico.edu

The Outstanding Lamb Feeder Contest is designed to reward youth that focus on feeding management and carcass quality of their projects.

The following requirements must be met to enter:

1. Lambs must be entered in the Silver Dollar Fair as a market lamb (will be verified).
2. Lambs must meet all Silver Dollar Fair requirements and be sold in the Junior Livestock Auction.
3. Entry in fair DOES NOT automatically enter youth in this award, they must complete the entry form available at <https://forms.gle/TZvAJGjGjVQTzJDE6>.
4. Entry information must match the one entered in the Silver Dollar Fair.
5. Entries are open from March 15 – March 28 of the current year.
6. Final feeding data must be reported via <https://forms.gle/oiJRM9bukbgUc91w6> between May 25 – May 31 of the current year.

Once entered, participants will receive a form to assist tracking total feed fed to their lamb from their initial weight date through fair. The purpose of tracking feed amounts is to estimate feed efficiency of the lambs. There are several ways to do this - keep track of total bags fed, weigh feed daily, know how much a "scoop" weighs and track scoops. Points will be earned for average daily gain (35%), feed efficiency (35%), and carcass value (25%). Points will be combined into an index value to allow for ranking of entries. Carcass value will be determined using the value grid set up by Superior Farms annually.
