California Resiliency Grant Upgrades Fair Broadband

The 2023 Siskiyou Golden Fair will include a major upgrade to the fairground broadband system. A grant was awarded to the 10th District Agricultural Association to improve the band width on the grounds to ensure that we can provide the services needed for the fairground year-round. "With the increased usage of the fairgrounds for emergency services and resiliency this grant allowed us to make the necessary improvements", stated CEO, Cliff Munson, "The five-day annual fair is our largest event, but this fairground is vital to the community 365 days a year."

The grant was provided by the California Department of Food and Agriculture through the California Resiliency Grant and in association with local broadband provider Cal-Ore the Siskiyou Golden Fairgrounds now has fiber and equipment that can handle any event at the flip of a switch.

"It is exciting to be able to provide this service free of charge to all our fairgoers and to those that occupy the fairgrounds during emergencies or rental events." At the 2023 fair, all fairgoers will be able to use the new Wi-Fi to capture and save those memories that we all cherish.

The 2023 fair "Siskiyou Nights and Carnival Lights" runs August 9-13, 2023, in Yreka.
