PROJECT TERMS AND EXPLANATIONS

PROJECT YEAR - Based on a calendar year. Current project year is same year as current Fair.

Notes for Project Inventory (Page 4):

1. Date acquired - List the date exhibitor obtained this item, on items older than 1 year; the year is sufficient.
2. Purchase cost or value - What did this item cost when exhibitor obtained it? (Fair market value)
3. Value at beginning of project- Same as purchase cost for items purchased current calendar year. On items from previous years this should be the value from last year's ending inventory or depreciated value of 10 percent of purchase cost per calendar year.
4. Depreciation of 10 percent - This is 10 percent, per project year, of the original purchase cost for the items exhibitor will still have at the end of the project. This includes items at the beginning of the project, as well as items purchased during the current calendar year. Depreciation is the loss in value of your assets and is an expense.
5. Value at the end of the project - This is the value at the beginning of the project, minus the depreciation.

Examples:		A	B	C	D
