FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES
COMMISSIONER NICOLE "NIKKI" FRIED

Welcome to the St. Lucie County Fair!

Each year, approximately 5 million people attend one of the numerous fairs around our state. As Florida's Commissioner of Agriculture, I am enthusiastic about the positive impact fairs and livestock shows have on the agricultural industry.

Events like the St. Lucie County Fair are an excellent platform for showcasing the finest "Fresh From Florida" products as well as the industry's latest technological advancements and innovations.

The Florida Department of Agriculture and Consumer Services created and maintains the "Fresh From Florida" program, which assists small and large producers alike by promoting the wide variety of high-quality products that are grown and harvested in Florida. I hope we can also count on your support of this program; just look for items with the "Fresh From Florida" label. Together, we can help our state's agricultural industry thrive.

While you are visiting the St. Lucie County Fair today, I hope you will take the opportunity to enjoy the outstanding food, entertainment, contests and youth exhibits. Most importantly, I hope your day at the fair will allow you to experience Florida's agricultural roots and its impact on our great state. Enjoy!

Sincerely,

Nicole Fried Commissioner

The lack of appropriate health documentation as provided in Chapters 5C-3 and 5C-4, F.A.C. and Section 585.145, F.S., is sufficient to determine that there is a risk of disease transmission requiring quarantine.

(a) Inspections will generally occur at the interdiction stations maintained by the Office of Agricultural Law Enforcement of the Department. This inspection does not replace or limit the ability of the Department to inspect premises or transport vehicles at other locations for violations as provided in Section 570.07(2), F.S.

(b) Any person transporting animals into or within the state shall present the animals for inspection whenever there is a Department interdiction station of the Office of Agricultural Law Enforcement on their route.

(3) Where any health documentation for an animal being transported into or within the state is missing or inadequate, where there are animals showing signs of illnesses, or where there are dead animals, the Department representative shall follow the procedures outlined in Table I, 5C-30.003, F.A.C., in determining the appropriate action for a violation. In addition to refusal of entry or quarantine, the Department may issue Advisory Notices or impose administrative fines in accordance with Table I, Rule 5C-30.003, F.A.C.

(4) Any animal required to be quarantined to destination or to premises of origin shall be maintained in strict isolation, until such time as a Department representative releases the animal from quarantine.

(5) When the Department determines that the threat of disease ceases to exist and/or animal health requirements have been met, a Department representative will provide notification that the quarantine has been released and is no longer in effect.

5C-30.003 Penalties.

(1) Any person importing animals into or moving animals within the state without the appropriate health documentation as required in Chapters 5C-3 and 5C-4, F.A.C., or failing to comply with the requirements of Chapter 5C-31, F.A.C., or animals that show signs of illness or infection, or dead animals, are subject to penalties as prescribed in this section.

(2) The provision of specified penalties in this rule shall not preclude the Department from seeking any legal remedy or injunctive relief available under Sections 585.005 and 585.007, F.S.

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada. The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- 1) All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- 2) Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- 3) Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
- 4) Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
- 5) Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- 6) The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- 7) **Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.**
- 8) No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- 9) The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
- 10) The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expos* and any special notices to members.
- 11) The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
