State Fair 2020

Dear Food Vendor,

We look forward to your participation in this year's State Fair. Please read carefully:

Application Deadline

To ensure the timely processing of your application, the Rappahannock Area Health District must receive it no later than September 1, 2020. The required application for this event is attached. **Please do not fax or email the application. Please use the attached application and not an old version you may have on file.**

Permit Fees

In addition to the completed application, a \$40 permit fee must be submitted. Additional fees will not be charged for temporary permits occurring later in the same calendar year in the Commonwealth of Virginia. However, to have those additional fees waived, the permit holder must retain and supply our office with copies of any health department receipts reflecting permit fees paid at the earlier events in the same calendar year. Checks or money orders should be made payable to the "Fredericksburg Health Department". A permit application must be submitted for each unit (i.e., tent, booth, etc.) that will operate at the fair, but only one \$40 fee is required. The permit fee or proof of previous payment must be attached to the application for permit. **If you already have a VDH temporary food establishment permit(s), please submit a copy of your permit(s) with your application.**

*****Certified Food Protection Manager/Required Knowledge of Food Safety**

As specified in 12VAC5-421-55 of the Virginia Food Regulations, by July 1, 2018, food establishments (including temporary food establishments) will need to have at least one employee with supervisory and management responsibility and the authority to direct and control food preparation and service who is a Certified Food Protection Manager (CFPM). This requirement does not apply to food establishments that serve only non-TCS food (popcorn, cotton candy, baked goods) or those where food handling does not exceed reheating, cold holding, and hot holding commercially processed and packaged ready-to-eat foods. Acceptable CFPM certifications include: ServSafe, 360 Training (Learn2Serve), NRFSP, and Prometric, Inc. (a copy of your CFPM certificate must be presented). For facilities that are not required to have a CFPM, The Rappahannock Area Health District staff will be available on-site from 10:00 AM to 4:00 PM on Wednesday, September 23rd and on Thursday, September 24th from 9:00 AM to 4:00 PM in the designated health department office to administer the demonstration of knowledge exam. In addition, ServSafe offers a 90-minute online food handlers' course with certificate at www.servsafe.com that can be taken prior to your arrival that would satisfy the demonstration of knowledge requirement. However, the food handlers' course does not satisfy the CFPM requirement. For more information, please visit <http://www.vdh.virginia.gov/environmental-health/food-safety-in-virginia/food-operators/cfpm/>.

*****Backflow Prevention Devices**

Vendors were notified during the 2017 State Fair that hose bib vacuum breakers would no longer be an acceptable means for backflow prevention. Vendors connected to the water supply under continuous pressure will be required to have a **Dual Check Valve**, rather than a hose bib vacuum breaker. Hose bib vacuum breakers do not work under continuous pressure to prevent back flow. -See page 2 for details

Inspections

Our staff will begin inspections on Wednesday morning for vendors who have a copy of their CFPM certificate or have demonstrated knowledge and are ready for inspection. **You must sign in at the health department office on Wednesday or Thursday** (see hours above) and present your certification or pass the demonstration of knowledge exam prior to receiving an inspection. **Inspections will be conducted on a first come first serve basis on Wednesday and Thursday.** Inspections for permitting **will not** be conducted on Friday, so please arrive accordingly. *Please see the vendor checklist at the bottom of the application for permitting requirements.

Please note: In accordance with state law, a temporary restaurant shall not begin preparing or serving foods until a permit is issued.

We look forward to working with you this year. If you have any questions, please do not hesitate to contact me at (540) 507-7393.

Sincerely,

Jennifer Davies
Environmental Health Supervisor

VDH Changes that Occurred In 2018

- By July 1, 2018, vendors serving foods that involve processes **exceeding** cold holding, reheating, and hot holding commercially processed foods will be required to have at least one employee with supervisory and management responsibility who is a **Certified Food Protection Manager**. Basic food handler's courses and passing the demonstration of knowledge exam **will not** be sufficient in meeting this requirement.
- Vendors connected to the water supply under continuous pressure will be required to have a **Dual Check Valve**, rather than a hose bib vacuum breaker. Hose bib vacuum breakers do not work under continuous pressure to prevent back flow.

2020 Application for **State Fair** Temporary Food Establishment Permit

Mail to: **Fredericksburg Health Department**
608 Jackson Street, Suite 200
Fredericksburg, VA 22401
Office (540) 899-4142

Complete and return to the Health Department with the application fee of \$40 or proof of payment.

This application and fee must be received by 4:30 pm September 1, 2020. *Do not fax or email*

Failure to provide the necessary information on this application may delay the processing of your application.
