Judging Criteria

Cultural Perfection 60
 Plants should have vigorous, healthy appearance and form including foliage, flowers and/or fruit, which is characteristic of a well-grown plant. There should be no indication of pests or disease and have a good shade of color typical to the variety.

Grooming: 20
 The entry should be clean and well groomed. No dried flowers, pollen, dirt, careless labeling, spray residue, spots, etc. Be aware of over grooming. Too much trimming may be penalized. A good rule of thumb is "taking nothing away... adding nothing" other than general grooming.

Distinction 10
 when compared to other entries of its class the entry has one or more observable superior quality that sets it apart as a specimen.

Container 10
 There should be good balance between the sizes of plants and the container. The container should be full enough to prevent the appearance of leggedness or overcrowding. Plants should be well established in their container.
