ABOUT THE TENNESSEE VALLEY FAIR

OUR MISSION The Tennessee Valley Fair is a non-profit organization dedicated to showcasing East Tennessee heritage, agriculture, and the arts for over 100 years! We also know a little bit about having fun.

OUR HISTORY Over 100 years ago, Knoxvilleians dreamed of having a Fair spectacular to showcase our East Tennessee heritage and talents. With the hard work of many dedicated people, the first Tennessee Valley Fair was held in 1916. Today, the Tennessee Valley Fair has continued to keep the original dream of a Fair spectacular alive. Thousands of people have their hands in making a wonderful event happen while over one-hundred thousand fairgoers set their sights on enjoying a September day.

OUR PURPOSE The Tennessee Valley Fair offers family-friendly entertainment to Knoxville and East Tennessee. Fairgoers take part in numerous activities on our fairgrounds including rides, live music, competitions, shows, food, actions sports, special events, and so much more! Not only are we a place to have fun but also a place to learn. Educating fairgoers about agriculture is important to us - after all, agriculture is what feeds us, clothes us, and helps us live.

COMPETITIONS Our competitions and contests are another great feature of the Tennessee Valley Fair. Thousands of community members enter and compete to earn their spot as a Tennessee Valley Fair Winner. Masterpieces and/or skills are showcased to every person who comes to our fairgrounds. Over \$100,000 is given to competitors through premiums and scholarships with over \$60,000 going to local youth (high school and younger).

Thank you for joining us in celebrating East Tennessee's heritage with us!

IMPORTANT NOTICE TO EXHIBITORS

The Tennessee Valley Fair is not responsible for the loss, damage or theft of any products associated with any displays or exhibits. It is the responsibility of the individuals associated with the displays or exhibits to take the necessary precautions to be accountable or to secure all items with a high dollar value that are used in any display or exhibit.

INTERPRETATION OF RULES

1. The Tennessee Valley Fair management reserves to its Executive Committee the final and absolute right to interpret these rules and regulations and arbitrarily settle and determine all matters, questions and differences in regard there to, or otherwise arising out of, connected with or incidental to the Fair.

DELIVERY OF EXHIBITS

2. The fairgrounds will be open for the reception of exhibits beginning Tuesday prior to opening day of the fair. **Check individual departments for dates and times.**

CARE OF EXHIBITS

3. Entry tags for each article entered will be mailed to exhibitors on receipt of registering online at tnvalleyfair.org or submitting the physical Exhibitor Entry Form. Tags should be securely attached to the exhibit before drop-off.
4. The Executive Director of the Tennessee Valley Fair shall have supervision and control of all exhibits and exhibitions during the event. He reserves the right to regulate the position of all signs, to control the distribution of advertising matter, and generally to direct the arrangement of articles on exhibition so far as some may be necessary to secure harmony and attractive appearance

REMOVAL OF EXHIBITS

5. At the conclusion of the Tennessee Valley Fair, the exhibitor must claim and take charge of their exhibit and supervise its removal. Exhibitors must show entry tag claim ticket to Department Head before removing exhibit from the exhibition area. Exhibitors need to check individual department/classes for dates and times of removal. Early removal must be approved by the director of the department. Exhibits not removed by 4:30pm on Monday, September 16, 2024 will be sent to Main Fair Office. Items not picked up by Monday, September 30, 2024 will become Tennessee Valley Fair property.

JUDGES AND AWARDS

6. Exhibitors may not enter more than one entry in any one lot unless otherwise noted.
7. The right is reserved to withhold the prizes awarded in every case in which it appears to the Tennessee Valley Fair that the regulations have not been complied with, or that fraud or deception has been attempted or when the article is not deemed worthy, and its decision shall be final and binding on all parties.
8. Judges are especially instructed not to award premiums to any article because of its presence. It must be individually worthy. When articles are not deemed worthy, judges will refuse to award premiums, whether or not there is competition in the class. It is not the policy of the Tennessee Valley Fair to encourage indifferent production of any kind, or to distribute premiums equally among exhibitors, and no premium shall be awarded to any article that does not possess the highest of merit.
9. A judge will be selected with the utmost care, and as far as possible, of national repute. The Tennessee Valley Fair, however, reserves the right to substitute the three-judge system should circumstances arise where it would prove of mutual benefit to the exhibitors and the Tennessee Valley Fair, and also to substitute other judges in the place of judges named.
10. Any exhibitor attempting or in any way interfering with the judges during their adjudications will be promptly excluded from competition, and any premiums awarded will be held.
11. If any disrespect is shown to an award, or the awarding judges, by the exhibitor or his agent, he shall forfeit all awards made to him, and the Director or official in charge shall report the same to the Executive Director.
12. The decision of awarding judges shall be final, and no appeal will be considered except in case of protest.
13. Judges in the several departments shall give the reasons, if desired, for their decisions, embracing the value and desirable qualities of the animals or articles to which the premiums are awarded. Reports of awards are to be made as early as possible after adjudications.
14. Judges will hand in their list of awards to the Director or their representative departments as soon as possible and make their extended reports afterwards. Department Heads will hand in the list of awards to the Premium Department as soon as possible. Judges are requested to report fully upon all objects of merit or to make such recommendations as circumstances may suggest, but must not award extra prizes. Judges are requested to note in the judges' book all articles examined by them, whether awarded premiums or not, and sign name.

PROTESTS

15. All protests will be determined by the Executive Committee and must be in writing to the Executive Director, accompanied by an affidavit setting forth the grounds for protesting.
16. Protest will not be considered unless they are accompanied by a deposit of \$50.00, which deposit will be forfeited to the Tennessee Valley Fair in the event the party fails to sustain its protest.

GENERAL RULES AND REGULATIONS (CONT.)

17. Protests against the exhibition of an entry must be filed at least two hours before the lot is judged and will be considered and determined before the judging of said lot.
18. Protests against an award must be filed with the Executive Director within 24 hours after show on the day after the award is made.
19. Parties interested will be notified of the time and place for considering protests and given the opportunity to submit evidence.
20. In addition to the right of protest guaranteed above to interested parties, the Fair reserves the right to take cognizance of any fraud, consummated or attempted, and to deal with all reasons implicated therein in such manner within the limits of the Fair as may, from the evidence relating thereto, be deemed just and proper.

PAYMENT OF PREMIUMS

21. Premiums in all departments will be paid by check and will be mailed within three weeks of the conclusion of the fair. Prize money will be mailed to address shown on the entry form. No claim that prize money has not been paid, or that there was a discrepancy in payment of money won, will be considered if made later than October 30, 2024. **Checks not cashed within 60 days become void, and will NOT be reissued.**

LIABILITY

22. The Tennessee Valley Fair expressly refuses to assume any liability for injuries to any person or damage to any property coming upon the grounds of the Tennessee Valley Fair, and no claims for injury to any person or damage to property shall be asserted or suit instituted or maintained against the said Tennessee Valley Fair, its officers, agents, or employees for said cause by any person having privilege to exhibit or license to operate on the fairgrounds or occupying any space thereon, and it is a part of the consideration for each license or privilege granted by the Tennessee Valley Fair that such claims for injury or damage are specifically waived.
23. In any damage, injury or loss to persons or property shall be caused by reason of neglect or willful act of any person, firm or corporation, or their agents, representatives or employees, having license or permit to exhibit or operate a business or occupy space on the Tennessee Valley Fairgrounds, the Tennessee Valley Fair shall in no manner be responsible, and in no case will be subjected to any expenses or liability. All persons causing same or are liable and therefore shall indemnify the said Tennessee Valley Fair.

MISCELLANEOUS

24. These rules apply to all departments, except where noted and should be read by all exhibitors, who should govern himself accordingly. The Fair reserves the sole and absolute right to construe its own rules and regulations and to determine arbitrarily all matters and differences in regard thereto, from which no appeal lies.
25. In the event of conflict of general and special rules, the latter will govern.
26. All property of every character, whether entered for exhibition, display or sale, or any other purpose, will be taken into the grounds and buildings, and kept entirely at risk of the owner, who assumes all responsibility for any loss, damage, theft, or accident that may occur. Neither the Fair, its officers or agents, will be responsible for any such loss, damage or theft, and it is distinctly understood that exhibitors, concessionaires and all other persons, firms or corporations having property on the grounds and desiring protection from such loss or damage must make their own arrangements therefore.
27. The solicitation of Funds or the Distribution of handbills, political literature, religious pamphlets, or any type of promotional material is prohibited on Fair property, except advertising material handed out from within rented space. No sale of items of any type allowed on Fair property except from rented areas approved by the Executive Director. No solicitation of Funds within rented area unless approved by the Executive Director. No posting of signs or advertising materials will be allowed on the buildings, fences or grounds unless approved in writing by management.

8. Uniform samples with a minimum of insect damage and rots are desired. Ears should be intact including unfilled tips. (These 10 ears may also be entered in Class 2, Lot 1)

SAMPLE WEIGHT VERIFICATION

Weight scores, harvested plant counts, row width, and brand/hybrid or variety name will be provided to Department Superintendent at the time of entry. Weights to be verified before or after harvest by authorized agent of the Fair Association, designated in cooperation with the UT Extension and Department of Agricultural Education.

The UT Agricultural Research will determine the grain moisture and yield per acre based on dry shelled corn at 15.5 percent moisture content.

Name of Brand/Hybrid No.	Row Width	No. of Plants Harvested
No. of Plants per Acre*	Weight of Sample	

* Plants per acre = (11616/row width in inches) x Number of plants harvested from 45' of row.

A placard with each exhibit shall present the following information:

Bushels Per Acre: _____

 Name & Address of Grower: _____
 Brand/Hybrid/Variety: _____

\$20.00	\$15.00	\$12.00	\$10.00	

Entries in this class will be judged on yield per acre and on an exhibit consisting of sixteen (16) selected potatoes.

YIELD VERIFICATION

Yields to be verified before or after harvest by authorized agent of the Fair Association, designated in cooperation with the UT Extension and Department of Vocational Agricultural. Yield scores will be provided to Department Superintendent at time of entry.

POTATO YIELD DETERMINATION BEFORE HARVEST

All row-crop yields can be directly determined without computation by weighing the yield from a specified row length and moving decimal point left or right. In the case of potatoes in 3ft rows, the pounds produced on 24 ft. of row give acre yield in 60 pound bushels by moving the decimal point one space to the right.

Example: 26.5 pounds equals 265 bushels per acre.

Yield checking should be done after vines have died and before crabgrass takes over. Three to five samplings should be taken per acre, averaged together. Samplings should properly represent field variability. The less variable the vine growth, the fewer the yield samplings needed. Indicate weight of each sample.

Row length harvested is related to row spacing as follows: 32"=27'6", 36"=24'0", 38"=22'8", 42"=20'7"

Most useful equipment for field checking is a long-handled, six-tine fork, a basket, and a spring scale.

1. Select the best specimens available that are true to variety, of high quality, and free from insect bites and disease.
2. Enter the exact number of vegetables called for in the catalog.
3. Check your exhibit for uniformity. When more than one vegetable is called for, they should be of the same size and appearance.
4. Unusually large or unusually small vegetables are not always of the best quality and seldom win prizes. It is usually better to select those of medium size for exhibit, such as potatoes and tomatoes. Smoothness is an important factor in many vegetables.
5. "Dress up" your entries. Wash and trim when necessary. Remember that dirty vegetables do not win prizes.

 Lot 1

1. **Corn must be a dent hybrid or open-pollinated variety and grown during the current season by the exhibitor.**
2. Entries in this class will be judged on yield per acre and on an exhibit consisting of ten (10) ears of corn selected from the plot used in getting a sample. This plot is charted below.
3. Corn to be harvested consists of **three (3) rows each 15 feet long** and five rows apart. The dimensions of the rectangular plot will be 5 feet in length of row, and eleven (11) rows in width. **A total of 45 feet of row will be harvested.**

Harvest this row _____

Harvest this row _____

4. The corn sample should be shucked and must be selected in accordance with the chart above. Count the total number of plants harvested and record this number. Weigh the sample and record the weight. Spring, digital, and platform scales are all acceptable devices for determining the sample weight. From this sample, collect two (2) ten-ear sub-samples.
5. Bring these two 10-ear sub-samples to the Jacob Building. Do not bring the entire harvested sample.
6. One 10-ear sub-sample will be used by the Fair to determine the moisture content of the grain at harvest and will then be removed from the building by the exhibitor..
7. The other 10 ears will be the exhibit to be displayed with the yield results. Exhibit must include the recorded sample weight, harvested plant count, row width, and brand/hybrid or variety name.
8. Uniform samples with a minimum of insect damage and rots are desired. Ears should be intact including unfilled tips. (These 10 ears may also be entered in Class 2, Lot 1.)

Sample Weight Verification

Name of Brand/Hybrid No.	Row Width	No. of Plants Harvested
No. of Plants per Acre*	Weight of Sample	

* Plants per acre = (11616/row width in inches) x Number of plants harvested from 45' of row.
 Example: (11616/36") x 60 plants = 19360 ppa

The UT Agricultural Experiment Station will determine the grain moisture and yield per acre based on dry shelled corn at 15.5 percent moisture content

FFA POTATO SHOW

Scoring

Entries in this class will be judged on the basis of 75 percent for production, and 25 percent for quality, and on an exhibit consisting of twelve (12) selected potatoes.

Yield Verification

Yields to be verified before or after harvest by authorized agent of the Fair Association, designated in cooperation with the Agricultural Extension Service and Department of Agricultural Education. Yield scores will be provided to Department Superintendent at time of entry.

Potato Yield Determination Before Harvest

All row-crop yields can be directly determined without computation by weighing the yield from a specified row length and moving decimal point left or right. In the case of potatoes in 3ft rows, the pounds produced on 24 ft. of row give acre yield in 60 pound bushels by moving the decimal point one space to the right.

Example: 26.5 pounds equals 265 bushels per acre.

Yield checking should be done after vines have died and before crabgrass takes over. Three to five samplings should be taken per acre, averaged together. Samplings should properly represent field variability. The less variable the vine growth, the fewer the yield samplings needed. Indicate weight of each sample.

Row length harvested is related to row spacing as follows:

32"=27'6", 36"=24'0", 38"=22'8", 42"=20'7"

Most useful equipment for field checking is a long-handled, six-tine fork, a basket, and a spring scale.
