### 2021 Animal Health Rules for Fairs and Shows

**Special Note:** Massachusetts COVID-19 response orders supersede all other exhibition guidance. Please visit [mass.gov/covid-10updates](https://mass.gov/covid-10updates) for the most current information and updates.

In addition to complying with all laws and regulations governing animal health issues all fairs must adopt and enforce the following rules for governance of the fair.

*NO animal will be admitted to the fairgrounds unless it meets the requirements below. NO animal is to be unloaded or enter a barn or tie-out stall until the animal and its paperwork have been inspected and approved for entry.*

#### A. General Rules for All Animals: See M.G.L. c. 128 §2C, 129 §2

1. All animals must be in proper physical condition, be properly identified and free of visual evidence of infectious, contagious or parasitic disease at time of arrival. Specific diseases and conditions which will disqualify an animal for entry are identified for each species in the following sections of the rules. Animals of any species with open or draining wounds will not be approved for entry.
2. Evidence of infectious, contagious or parasitic disease or failure to produce the necessary documents for health certification, vaccination or testing will result in the animal's rejection for entry. **THE INSPECTOR'S DECISION IS FINAL.**
3. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only, and except for surgical procedures performed by a duly-licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
4. Official ID: See Final Rule: Summary of Traceability for Livestock Moved Interstate (Summary of general Requirements by Species)

All livestock must have proper official, individual ID as required for the species, e.g., official metal ear tag, tattoo, scrapie tag, or microchip. Registration forms must accompany health certificates when used as part of official identification.

#### 5. Health Certificates: --

One Official Certificate of Veterinary Inspection (OCVI) may be allowed for animals of the same species to be exhibited at fairs or shows in any of the New England states (CT, \*ME, MA, \*\*NH, RI, and \*\*\*VT) when submitted with an itinerary of the dates and locations of the events at which the listed animals are expected to be shown. Only animals that are healthy at the time of shipment may be moved. Note that \*ME, \*\*NH, and \*\*\*VT have additional requirements. Certificates of veterinary inspection in these states are valid for a shorter period of time and may have additional language, movement and permit requirements.

- a. **MA, and RI:** OCVIs issued on or after **January 1, 2021** may be used for those animals being shown at multiple fairs and shows in CT, **MA**, and RI through the 2021 show/fair season ending October 31, 2021.

- b. A single OCVI from the animals' home state may be completed for travel to and from the New England states in which the animals will be exhibited. *MA animals being shown ONLY in MA may substitute a signed, dated letter on the letterhead of an accredited veterinarian for an OCVI if all required information is included and all additional requirements are met.*
- c. Multiple animals of the same species may be listed on one health certificate with appropriate individual IDs and descriptions. Animals of different species may not be listed on the same official health certificate.
- d. **An itinerary of the names and locations for each New England fair or show at which owner expects to show the listed animals and the dates when each animal is expected to be on each site, must be prepared by the owner and presented to the veterinarian at the time the OCVI is written.**
  - i. **A copy of this planned itinerary must be attached to the official health certificate (import and export) for it to be used for more than one fair or show.**
  - ii. That proposed list should be signed by the veterinarian and the owner/ exhibitor and reference the relevant OCVI number(s).

**(INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS)**  
**NATIONAL CODE OF SHOW RING ETHICS**

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and

analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expositions* and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules

may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
