

Electrician

Erie County Agricultural Society, producers of the Erie County Fair

Classification: Non-Exempt (Hourly)

Location: On-site at the Fairgrounds located at 5600 McKinley Parkway, Hamburg, NY 14075

Hours: Full time from 7:30 am-4:00 pm; Must be able and willing to work evenings and weekends for special events, including all twelve days of the Erie County Fair each August

Reports to: Facilities Manager

The Role: The Erie County Agricultural Society's (ECAS) maintenance team is growing! We are seeking a highly motivated full-time electrician to join our team. In this role, you'll thrive in a fast-paced environment, contributing to the setup of trade shows and tackling various electrical projects, including upgrades and new construction.

The Organization: The Erie County Agricultural Society is a private, not-for-profit membership corporation that annually produces the Erie County Fair. Established in 1819, the society is the oldest civic organization in Western New York.

Mission Statement: The basic purpose of the Erie County Agricultural Society, producers of the Erie County Fair, is to preserve and enhance, by educational endeavors, the agricultural and historical legacy of New York State.

Essential Duties and Responsibilities

- Reading and interpreting blueprints and technical diagrams
- Installing and maintaining electrical wiring, control systems, and lighting
- Inspecting and installing circuit breakers and transformers
- Identifying electrical problems using a variety of testing devices
- Repairing or replacing wiring, equipment, or fixtures
- Following state and local building regulations based on the National Electric Code
- Performing preventive maintenance on electrical systems
- Communicating with promoters, coworkers, and contractors to ensure electrical systems meet specifications
- Completing job reports and ordering supplies as needed
- Set up & take down trade shows, temporary power wiring & calculate power needs
- Knowledge of communications: cat5/cat6, lighting and HVAC control systems
- Trained in PPE and ability to follow safety procedures
- Able to troubleshoot low volt DC 24v & AC systems 120/240v, 120/208v, 277/480v, 1 phase, and 3 phase (including high voltage up to 13k volts or willing to learn)
- Able to bend EMT & PVC conduits
- Knowledge of portable generator installation and generator load calculations
- Must be flexible and help where needed (carpentry, plumbing, snow removal, barn clean out, etc.)

Qualifications:

- Valid journeyman electrician's certification or proven experience as an electrician (minimum 5 years preferred).
- Valid driver's license
- Strong knowledge of electrical systems, tools, and equipment used in commercial settings.
- Ability to work in a fast-paced environment with minimal supervision
- Familiarity with OSHA safety standards and best practices
- Ability to read & understand blueprints and electric line diagrams
- Excellent troubleshooting and problem-solving skills
- Physical ability to perform job-related tasks, including lifting, carrying, and pushing 75lbs, climbing, and working in various weather conditions.
- Strong communication and teamwork skills.
- Availability to work flexible hours, including weekends and evenings, based on event schedules.

Wage Range:

\$24-\$28 per hour
