CODE OF ETHICS

The Code of Ethics was developed IN COOPERATION WITH THE CALIFORNIA STATE 4-H, CALIFORNIA FFA ASSOCIATION, CALIFORNIA STATE GRANGE, WESTERN FAIRS ASSOCIATION, AS WELL AS OTHER AGRICULTURAL ORGANIZATIONS. We believe this code, when instituted, will help ensure that all exhibitors are on a level playing field, that animals are treated safely & humanely, that food safety is insured and that a positive environment is maintained.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conducts or questionable acts. Exhibitors who violate the code of ethics will forfeit premiums, awards & auction proceeds and shall be prohibited from future exhibition in accordance with these rules. Expectation of rules & behavior to apply to social media posts, as well.

The following practices or procedures are unacceptable & are defined as being deceptive, fraudulent, unethical & inhumane in the care, fitting, preparation & showing of all classes of livestock. The use of any illegal drug is prohibited. Legal or illegal substances used to phenotypically alter the appearance of an animal entered in livestock events are prohibited. Use of illegal drugs is considered a premeditated act. Furthermore, any information pertaining to the practice of illegal alteration of an animal will be turned over to the proper authorities for criminal prosecution.

1. All exhibitors must have viable proof of ownership available to Fair & Livestock Officials at their request. Market animals must be owned & under exhibitor's daily care according to CDFA State Rules for California Fairs. The official ownership date is the date shown on the bill of sale, unless the animal was bred by the exhibitor, in which case calving or birth records must be shown. Registered breeding livestock must show the exhibitor as the owner of the animal on the breed association papers or certificate.
2. No exhibitor will be allowed to show an animal which has been previously sold at an auction or sale as a market animal through another fair or livestock show whether or not there is an actual change of ownership. Any method used to misrepresent the age of an animal for a class in which it is shown is deceptive & considered illegal. Showing an animal for another individual by claiming ownership in order to show in a specific livestock class or event is prohibited. False ownership is illegal.
3. Junior exhibitors are expected to care for & groom their animals while at fairs or livestock shows. Junior exhibitors may have assistance caring for & grooming their animals from another junior exhibitor, leader, advisor or parent, as long as junior exhibitor is present, engaged, learning and actively helping.
4. All tails will be natural in nature. No twining allowed.
5. Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, leader, advisor and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing at the owner's expense. Animals not entered in any event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state & provincial statutes, regulations & rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state & provincial statutes, regulations & rules affect the animal's performance or appearance at the event. If the lab report on the analysis of sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample tested by the lab, to which it is sent, is the one taken from the animal in question, its integrity is preserved & all procedures of said collection & preservation, transfer to the lab & analysis of the sample are correct & accurate & the report received from the lab pertains to the sample taken from the animal in question & correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, leader, advisor or absolutely responsible person to prove otherwise.
6. Any surgical procedure, injections or insertion of foreign material, substance or drug or the external application of any substance (irritant, counterirritant or similar substance) which could affect the animal's performance or alter its natural contour, confirmation or appearance of an animal's body is illegal. This includes vegetable oil, silicone, air, blue goo or any other substance used to alter the shape of the animal.
7. By entering, exhibitor acknowledges responsibility in the event their animal is found to contain volatile drug residues or is deemed unfit for human consumption at processing. Adulterated carcasses or those deemed unfit for human consumption by USDA Food Safety Inspection Service (FSIS) personnel at processing are the sole responsibility of the seller.
If animals fail to pass ante-mortem inspection, or their carcasses are determined to be diseased or adulterated at processing, exhibitors shall be liable for financial restitution, attorney's fees and Civil penalties. Exhibitors may

also be subject to disciplinary measures administered by the Tulare County Fair, including but not limited to, the cancellation of sale transactions and/or reimbursement to buyer.

8. The use of inhumane showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivances or other similar practices are not acceptable & are prohibited. Other practices, unless under the written authority of a licensed veterinarian, which are not acceptable or prohibited include, but are not limited to, liquid diets for lambs, excessive shrinking, excessive exercising, tying animals with the feet off the ground & electric stimulation.
9. Criticism or interference with judges, fair or livestock show management, other exhibitors, breed classifiers or show officials before, during or after the competitive event is prohibited. All officials shall be treated with courtesy, cooperation & respect & no person shall direct abusive or threatening conduct toward them.
10. No exhibitor, leader, advisor or responsible person shall conspire to intentionally violate the Code or knowingly contribute or cooperate with another by affirmative action or inaction to violate this Code.
11. The application of this Code provides for absolute responsibility for an animal's condition by exhibitor, leader, or advisor whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics.
12. The act of entering of an animal in fair livestock show is the giving of verification by the exhibitor or absolutely responsible person that he/she has read the Code of Ethics & understands the consequences of & penalties provided for actions prohibited by the Code. It is further a consent that any action which contravenes these rules & is also in violation of federal, state or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

BY SIGNING, WHETHER IMPLIED ONLINE OR PHYSICALLY ON A PAPER ENTRY FORM:

The exhibitor & his/her Parent or Legal Guardian or leader/advisor hereby certifies that each has read, understand & will abide by TCF rules and regulations. We further certify that we have not administered &, to the best of our knowledge, any entry from this exhibitor has not received any substance not approved by the FDA and/or USDA. In instances where an animal has been administered a drug that is FDA approved for its species, the exhibitor must be aware that the time it takes for no drug residue to be found in the system is generally longer than the labeled withdrawal time for most drugs.

In the event any animal is declared by a veterinarian, processor or testing agency to be unethically fitted, the Executive Director and/or CEO will disqualify the exhibitor from this year's competition & one year following the incident.

Reinstatement of anyone disqualified may be made only by the Executive Director & CEO. The exhibitor will forfeit all titles, awards, prizes, auction proceeds, premiums, scholarships & market/floor money if the animal is disqualified.

Americans with Disabilities Act (ADA)

In accordance with the Americans with Disabilities Act (ADA), exhibitors that fall into the following classifications may want to apply for assistance from the Livestock Special Needs Abilities Committee. An individual with a disability is defined by the ADA as a person who has physical or mental impairment that substantially limits one or more major activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment.

The Livestock Special Needs Abilities Committee has been formed to ensure that all exhibitors have a fair opportunity for competition at the Tulare County Fair. Registration/identification with the committee is on a voluntary, self-identifying basis by either the parent of an exhibitor under eighteen (18) years of age, or the exhibitor themselves if they are eighteen (18) years of age or older. The following will apply to those individuals registered with the committee:

- 1) The exhibitor must be the handler of the animal in the ring, but an assistant may be in the ring with the exhibitor as a "safety backup." The assistant must be a Livestock Exhibitor showing at the 2023 Tulare County Fair.
 - 2) A Special Needs exhibitor may have the option of showing in the Novice Showmanship class regardless of how many years he/she has been exhibiting. This option will be approved by Fair Management with input from the Committee.
1. All Sale animals will be marked coming out of the auction arena.
 2. Supreme, Reserve Supreme, and 4-H & FFA Grand Champions and Reserve Grand Champions must sell for custom or resale processing. Resale processors will be Coelho's, Clausen's Meat and Superior.
 3. Exhibitors will be responsible for the care of the animals until they leave the fairgrounds. Sellers not providing proper care will be fined an additional 6% of the selling price of their livestock entry.

BREEDING BEEF DEPARTMENT

1. A permanent ear tag or tattoo number is required and must be listed on the entry form along with the animal birth date.
2. All beef animals must have neck ropes on at all times.
3. BLOCKING CHUTE RULES - Chutes must be located in areas designated by management. Chutes will not be allowed in aisles.

SCRAPIE TAG INFORMATION AND INSTRUCTIONS

Official Scrapie tag information is required for all sheep AND goats entered at the Tulare County Fair under the National Scrapie Eradication Program. This is a mandatory program and requires participation by all sheep and goat producers from all 50 states. It includes individual identification of animals (sheep and goats) with an ear tag or tattoo prior to changing ownership (so that animals can be traced) and to allow testing samples from sheep at slaughter facilities.

What is a Scrapie Tag?

Sheep and Goat producers will register and request from USDA approved individual official tags. These are referred to as scrapie tags and are required for:

- **All Sheep and Goats must be identified when changing ownership and prior to transport before a show, fair, petting zoo, or exhibition.**

Exception to the use of Scrapie Tags:

- **Registered goats that have a legible registry tattoo accompanied by a copy of the registration certificate do not require a scrapie tag if their tattoo is registered as a unique entity with the breed association and USDA-APHIS' Veterinary Services office.**

Exhibiter must bring own reader.

The scrapie tag identifies two specific tracking numbers:

- **Premise number;** also referred to flock, herd, or breeder identification. This number will be assigned by the Federal Government and follows a specific format.
 - The first two character of this number indicate the two-digit alpha state code. For example, if the animal was born in California the first two digits would be "CA". If the animal was from Oklahoma, the first two characters would be "OK".
 - The 4 to 5 digits that follow the alpha state designation is the premise number which has been assigned by the Federal Government for that specific livestock producer AND location.
- **Individual Animal Identification Number:** This is a numbering sequence to identify one animal from the specific premise. It may be one digit or several. This is a numbering sequence that is chosen by the breeder.
 - **Both sets of these numbers must be recorded on the Tulare County Fair Entry form.** This information is to be recorded from the actual tag that is located in the ear of your animal.
 - **Some breeders may use a tattoo method or a microchip.** If the requirements have been met these are acceptable ways per the Federal Government.
 - It is **ILLEGAL** to remove or tamper with the scrapie tag once it has been issued.

It is highly recommended that on your bill of sale for your purchased animal, the breeder indicates the Scrapie Tag information for inclusion on your entry form and to help resolve any issues that could arise. Be sure to bring your original Bill of Sale to the Tulare County Fair for reference as needed.

How to Complete the Tulare County Fair Entry Form? On the Tulare County Fair Entry Form, in the section labeled Scrapie # (Sheep/Goat) Brucellosis# (Dairy) form you will enter the Premise number followed by the individual animal number.

Example number 1; based on the below sample tag: XX2373/1234 would be your entry.

Example number 2; where the XX on the below tag was identified as California:CA2373/1234 would be your entry.

The above entry indicates that animal was born in California at location 12345 (which is on file with the Federal Government) And 000123 is the individual animal number for this breed.
