Happy Caching!

Scan QR code to download Geocaching app.

Geocaching is an outdoor adventure using GPS technology for a modern day treasure hunt.

To play, participants use a Geocaching app on a smartphone or a GPS device to navigate to cleverly hidden containers called geocaches.

Visit Geocaching.com to set up a free account to get started. You may discover some small items or trinkets inside the geocache – the general rule of thumb is if you take something, leave something of equal or greater value.

When you find a geocache, sign and date the log sheet within the cache.

This form must be completed for the GeoTour's reward coin. See reverse page for points.
