Geocaching is an outdoor
adventure using GPS technology
for a modern day treasure hunt.

To play, participants use the
GeoCaching app on a smartphone
or a GPS device to navigate
to cleverly hidden containers
called geocaches.

Visit GeoCaching.com to set up a
free account to get started. You
may discover some small items or
trinkets inside the geocache – the
general rule of thumb is if you take
something, leave something of
equal or greater value.

When you find a geocache, sign and
date the log sheet within the cache.
