

CLEAN UP YOUR ACT

Reduce disease risk for you and your animals!

Wash your hands before and after contacting animals.

Use an **effective disinfectant** at the **right concentration** and recommended **contact time**.

Do not allow smoking, food, drinks, or strollers in animal areas.

Keep **vaccinations up-to-date** for you and your animals.

Stay home if you or your animal are sick.

Keep communal hoses out of water buckets.

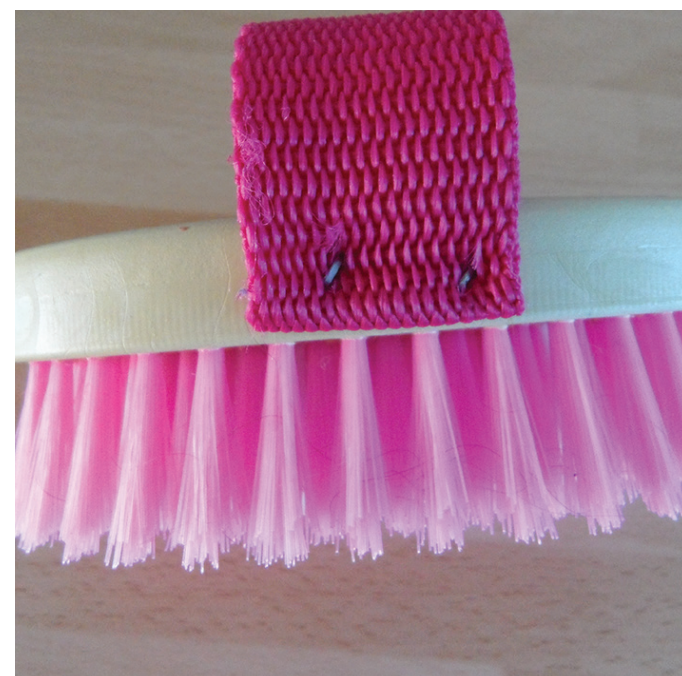

Clean and disinfect footwear before and after visiting animal facilities.

Quarantine new animals or those returning from an event for 30 days.

Protect animal feed and water from contamination.

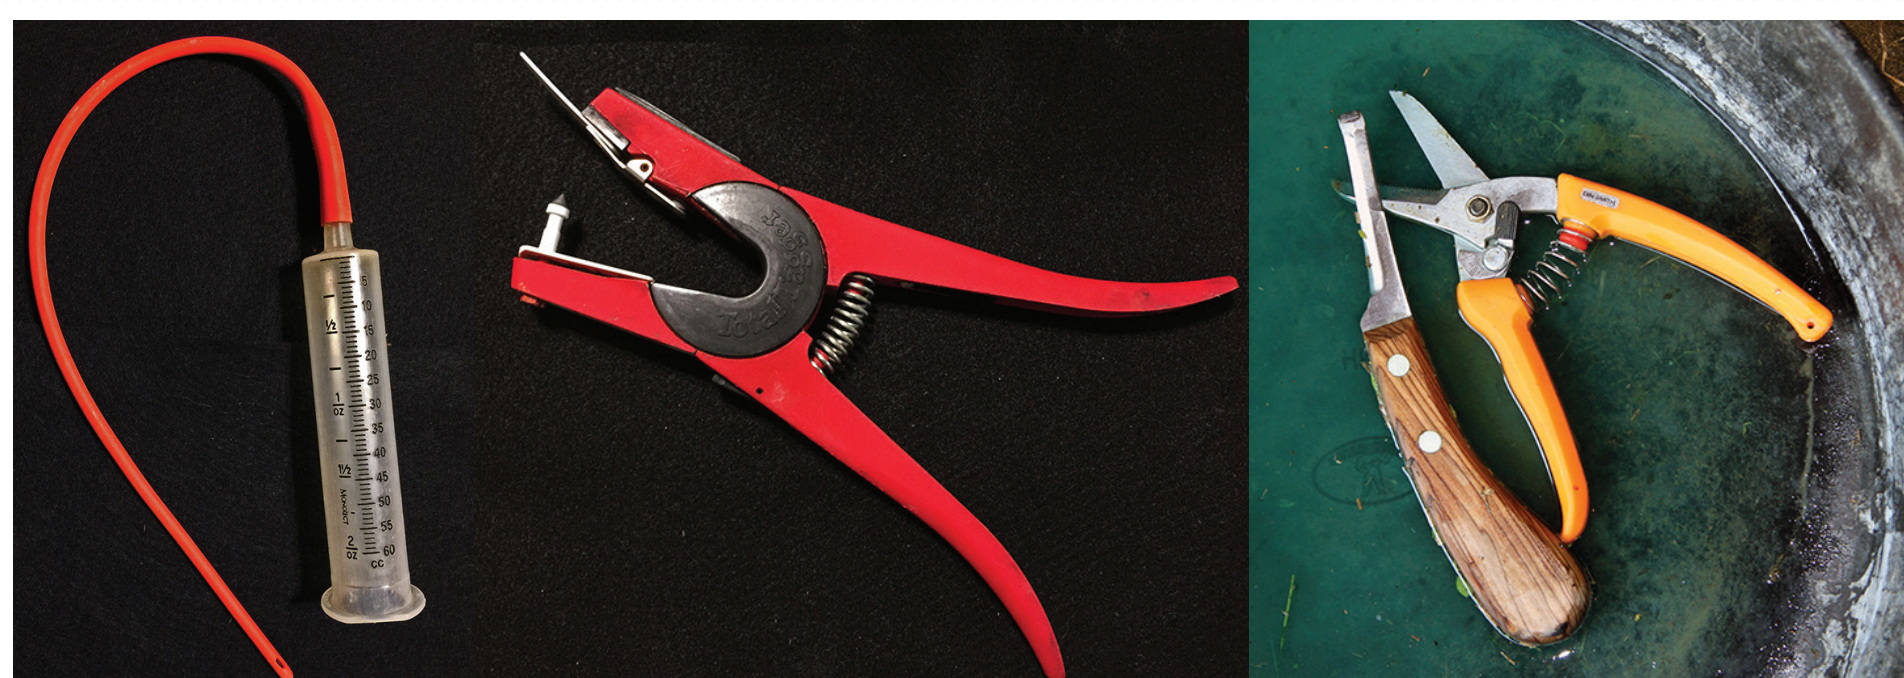

Do not share tools, tack, or equipment with others.

Control vermin such as rodents and wild birds.

Prevent direct contact between animals at an event.

Clean equipment with soap and water before disinfecting.
