2022 Bucket Calf Mentor Requirements

Bucket Calf Project

The Bucket Calf Program was started to expose youth to the basic care and responsibility of raising and showing cattle. This program is for Pre-Kindergarten through 2nd graders (4-8 years old). The program involves getting a calf at less than a month of age, bottle feeding it, halter breaking it, and finally showing it at the Fair. The calf should be around five months old when shown at the fair. This program offers younger kids an opportunity to start getting involved in showing livestock.

Bucket Calf Mentors

Youth will be selected as a Bucket Calf Mentor by committee members, County Extension Agents and Agricultural Education Teachers. Those selected will work with youth participating in the project. The mentors will be required to visit participants at calf location, attend meetings, present as a group at an educational project meeting, attend the project progress shows, and attend the show at the Washington County Fair Bucket Calf Show.
