The County Commissioners and Fair Board meeting August 13th was recapped.

Dagg and Killpack both voiced a much better feeling after meeting with Hesse and Boyer at the fairgrounds and reading the report drafted by the Port of Portland relating the commercial lease development project.

A motion was passed to sign the comprehensive plan change request submitted by the Fair Board to the County Commissioners.

Duris expressed his full support of the Fair Board in the development project.

Killpack thought the overall plan was a good one and an asset to Hillsboro and Washington County.

Dagg expressed her concern for the overall best plan for utilization of the property and parking space placement.

During the recess the Fair Board thanked the Commissioners for their support.

Respectfully submitted,

Lorrie Maki
