

Section 5
Specimen Flowers – Annuals

- *Exhibits in this division must be cut flowers grown by the exhibitor & must conform to the number of blooms, spikes or stems specified in each class.
- * Number in parenthesis following the flower name indicates the number of specimens, stems or blooms required for entry.
- * Display foliage of flowers but no foliage in water. Plants should be groomed and in clear water.
- * The uniformity of height, color and size is an important factor in evaluating entries.
- * Flower in each entry must be of one color and variety unless otherwise stated.
- * All exhibits to be in clear jars except tall specimens are to be in 2 liter clear soda bottles or other size appropriate bottle with label and glue removed.
- * Entries for most unusual must be identified/labeled.
