The following rules MUST be strictly enforced. The Williamson County Fair Poultry Division will enforce high health standards. Please contact the State Veterinary Clinic at Ellington Agriculture Center in Nashville to have your birds scheduled for testing at least 3 weeks prior to the check-in date. **THIS IS THE BEST WAY TO KEEP YOUR BIRDS FROM BEING EXPOSED TO OTHER POULTRY PRIOR TO TESTING.** ON-SITE TESTING will be available but will need to be scheduled and conducted before check-in will be permitted. It is better for you and your birds to have them tested in advance if at all possible. All poultry must be in good physical condition and clean show-worthy appearance. Do not bring birds to check-in that are wet.

SPECIAL NOTE: All birds must originate from pullorum-typhoid clean flocks or hatcheries and have negative pullorum-typhoid test within 90 days prior to exhibition. ON SITE TESTING will be available but your healthiest and most bio-secure option is to test BEFORE YOU COME TO THE FAIR. All testing must be done and proper documentation must be presented to the Show Superintendent BEFORE bringing cages into the show area.

Documentation must be filed with show chair for duration of exhibition. The Show Superintendent must visually inspect birds to meet criteria before they are placed in pens. Leave your birds in your vehicle until you have checked in at the registration table.
